Deferred tax assets	6,224,462,428		
Reserve for bad debts	(34,997,754)	Total net assets	10,790,739,659
Total assets	71,429,705,335	Total liabilities and net assets	71,429,705,335

(Notes)

(1) The standards for valuation of securities are as follows:

- ① Shares of subsidiaries are stated at cost pursuant to the moving average method.
- ② Securities held to maturity are stated at amortized cost (straight line method) pursuant to the moving average method.
- ③ Marketable securities held as available for sale are stated at market price as of the balance sheet date. The unrealized gains/losses on the marketable securities are recognized directly within "Net assets" and the cost of securities sold is pursuant to the moving average method.
- ④ Non-marketable securities held as available for sale are stated at cost using the moving average method where the fair value is extremely difficult to determine.

(2) Money held in trusts held for trading purposes are stated at the fair value.

(3) Depreciation of property, plant and equipment is calculated using the declining-balance method. Fixtures attached to buildings and structures acquired on or after 1 April 2016 are calculated using the straight line method.

(4) The Association records software for internal use as an intangible asset. Depreciation on such assets is calculated using the straight line method based on an estimated useful life of 5 years.

(5) Conditions of financial instruments and fair values are as follows:

① Conditions of financial instruments

The Association's investments policy is in accordance with its Business Operations Plan, as approved by the Financial Service Agency, and gives higher priority to investments which are considered stable. Financial instruments the Association holds are mainly cash and deposits at banks, money in trusts, Japanese government bonds, Local government bonds, Corporate bonds and Foreign securities. Holding these financial instruments exposes the Association to credit risk, foreign exchange risk, liquidity risk and other market risk factors. As for exposure to credit risk, investments in corporate bonds (including foreign securities) are limited to those with ratings of "A" or higher in principle. If an investment's rating is downgraded below "A", the Association would likely sell the investment after timely research of the issuer's financial condition. The Association's exposure to foreign exchange risk exists mainly in holding foreign currency denominated bonds. Some foreign currency cash deposits are also held by the Association. Conversely, certain outstanding claim liabilities are denominated in foreign currencies which are also impacted by foreign exchange fluctuations. As such, the Association manages its exposure to fluctuations in foreign exchange rates by controlling the proportion of the amounts of foreign assets and liabilities that it holds. As to liquidity risk, the Association considers its exposure to be low as most securities held would be expected to be readily sold in the open market when necessary. Regarding other market risk factors, as the Association mainly invests in bonds with high credit ratings and generally holds them until their maturity date, the Association considers the possibility that other market risks would have a significant impact on the Income and Expenditure Account to be remote. Regarding premiums receivable, although there is a risk of uncollectible accounts, the Association's Underwriting Department strives to collect outstanding premiums in a timely manner and the section in charge in the head office continuously monitors the status of outstanding premiums receivable.

② Fair value of financial instruments

The amounts recorded in the balance sheet, fair value and the difference as of 31 March 2019 are as follows:

(Unit : JPY millions)

	Amounts of Balance sheet	Fair value	Difference
(1) Cash and deposits at banks	17,747	17,747	—
(2) Money held in trusts	6,966	6,966	—
(3) Securities			
Securities held to maturity	16,628	17,339	710
Marketable securities held as available for sale	20,029	20,029	—
(4) Premiums receivables	473		
Reserve for bad debts	△34		
	438	438	—
Total assets	61,811	62,521	710
(1) Foreign reinsurance payable	695	695	—
Total liabilities	695	695	—

(* 1) Net of general and individual reserve for bad debts on premiums receivables

(Note 1)

Assets

(1)Cash and deposits at banks, (4) Premiums receivables

Cash and deposits at banks and premiums receivables are stated at the carrying amount as these are settled in the short term and those fair values are approximately equal to the carrying amount.

(2)Money held in trusts

The fair value of money held in trusts individually managed primarily for investments in securities are stated at the price provided by the trustee bank.

(3)Securities

Bonds and investment funds are mainly stated at the price presented by the financial institution.

Liabilities

(1)Foreign reinsurance payables

Foreign reinsurance payables are stated at the carrying amount as these are settled in the short term and their fair values are approximately equal to the carrying amount.

(Note 2)

Unlisted stocks of ¥1,211 million are excluded from (3) “Marketable securities held as available for sale” as no market prices exist and future cash flows are not estimable and therefore it is extremely difficult to determine the fair value.

(6) The translation of foreign currencies into Japanese yen is carried out pursuant to the Accounting Standards for Foreign Currency Transactions.

(7) The reserve for bad debts is stated on the basis of past experience.

(8) The reserve for bonuses is provided for at the amount estimated at the balance sheet date for future payments.

- (9) The reserve for retirement benefits is stated at the amount which would become liable to be paid should all of the staff employment contracts be voluntarily terminated at the balance sheet date after deducting the fair value of the funded plan assets. At the end of this financial year, prepaid pension cost of ¥140 million is included in “Other assets”.
- (10) The reserve for directors’ retirement benefit is stated at the amount which has been incurred at the balance sheet date based on the bylaws of the Association.
- (11) Consumption taxes are accounted for under the “tax inclusive” method.
- (12) Accumulated depreciation for property, plant and equipment amounts to ¥339 million and advanced depreciation amounts to ¥301 million.
- (13) The total of deferred tax assets amounts to ¥6,998 million and the total of deferred tax liabilities amounts to ¥213 million. The figure deducted from deferred tax assets as a valuation reserve amounts to ¥559 million.
- The breakdown of deferred tax assets by main cause of occurrence are as follows:
- Reserve for outstanding claims ¥3,479 million
Underwriting reserve ¥2,808 million
Business tax ¥55 million
Reserve for bonuses ¥30 million
- The breakdown of deferred tax liabilities by main cause of occurrence are as follows:
- Unrealized gains on “Marketable securities held as available for sale” ¥174 million
- (14) In addition to the property, plant and equipment recorded on the balance sheet, lease contracts are in place for copying machines.
- (15) Investment in subsidiaries amounts to ¥11 million.
- (16) ① Outstanding claims with respect to reinsurance stipulated in Article 51 of the Enforcement Regulations of the Ship Owners’ Mutual Insurance Association Law of Japan (the “Regulations”) which is referred in Article 53.2 of the Regulations amounts to ¥14,394 million.
- ② There is no underwriting reserve with respect to reinsurance stipulated in Article 51 of the Regulations.
- ③ There is no amount deducted relating to the distribution of surplus stipulated in Article 28 of the Regulations.
- (17) Underwriting reserve consists of ordinary underwriting reserve ¥8,106 million and catastrophe reserve ¥15,611 million.
- (18) Footnote amounts not shown as a single currency unit have been appropriately rounded down for presentation purposes.
