Re: Welding and Painting operations

Greetings,

Taking the necessity to comply with safety procedures and protection of environment into consideration, please be advised that every operation of welding, cutting, scrapping and painting in the entrance channel, anchorage, basin and in port jetties must be performed with permission from and under supervision of Port and Marine Affaires of this office. It is imperative that the matter is notified to the vessels under your agency. In the event of non-compliance with the above, the penalty will be imposed.

Signed by:

Mohammad Rastad

General Director
