

A Day in the Engine Room

Special tools are required to maintain the purifier.

If you are unsure, you must ask in advance!

We are maintaining the F.O. purifier today.

Bring the required tools!

Yes, sir!

You're late!

... But, if I asked, I will get yelled at for not knowing.

On the other hand, if I do it my way, I will get yelled at for not asking first.

What should I do!?

Um? what did you bring?

Can't easily find the tools...

"Ask First"

Clear and good communication is key!
