To the Members

Conflicts in Ukraine (No.14)

We would like to report the latest updates in Ukraine and Russia. As to the former relative information, please refer to our Japan P&I News [No.1173](#) dated 26 May 2022.

Ukraine:

Martial law still has been introduced in Ukraine and there is a curfew. All Ukrainian Ports are closed. Russian forces declared that they have full control of Mariupol port. Heavy fighting between Ukraine and Russia is still keeping on in Eastern part of Ukraine.

Russia:

The same as before, Russian ports continue their normal operations, but the local correspondents report that the Azov Sea, a North-east area of Black Sea and near to Crimea Bridge are closed for navigation. The Joint War Committee (JWC) added Russia's waters to its list of areas deemed high risk in addition to Ukrainian and Russian waters in the Azov Sea and Black Sea.

Sanctions applied to some of Russian banks by the US, EU and UK. These countries are still restricting the sale, supply, transfer or export of military goods, dual-use goods, critical industry goods and technology to Russia. Sanctions to Russian officers and individuals who have strong effects on supporting the aggression are still keeping on. All EU ports are closed for Russian-flagged vessels.

The EU will this week roll out its planned ban on the insurance or reinsurance of Russian ships, but the clarification of "Russian ships" has not been released. Accordingly, it is too early to evaluate the effect of this sanction. After the sanction is launched, we will announce on this matter.

Please note that the change of local situation is so unforeseeable, that the above is to be updated accordingly. It is highly recommended for members to check the latest information at the time of vessel's calling through local agents in Ukraine.

Yours faithfully,

The Japan Ship Owners' Mutual Protection & Indemnity Association
