外航組合員各位

国際海事局（IMB）2022年1月～9月期の海賊と武装強盗報告書について

先日国際海事局（IMB）から2022年1月～9月期のIMB海賊・武装強盗報告書の提供を受けましたので以下IMBによる要約と共にご案内申し上げます。

IMBによれば、2022年1月～9月までの間に、90隻の船舶で海賊と武装強盗による事件が発生したことを報告しました。内訳は侵入85隻、襲撃未遂4隻、ハイジャック1隻でした。

この90件の攻撃で38人の乗組員が直接被害を受け、27人が人質に、6人が暴行を受け、5人が脅迫されました。

また、以下のとおり襲撃を受けた事件の大半は、船舶が錨泊・停泊中に報告されたものです。

ギニア湾

ギニア湾で報告された事故は、乗組員の誘拐がゼロとなり、引き続き史上最低水準にあります。船員の安全確保と長期的な地域・国際海運・貿易のためには、沿岸当局の継続的な努力と各国海軍の存在が不可欠であり、IMBは引き続き、すべての船員がこれらの海域で業界のベストプラクティスを守り、すべての事件を可能な限りタイムリーに報告するよう奨励しています。

2022 年の最初の 9 か月間で合計 13 件の事件が報告されており、このうち 11 件は武装強盗の定義に該当し、2 件は海賊と見られています。

アジア (シンガポール海峡)

この海域では 31 件の事件が報告され、過去 2 年間より増加しました。報告されたすべての事件で、船舶は航行中および暗闇の時間帯に乗り込まれています。これらの事件は低レベルなものですが、侵入者はナイフや銃で武装しており、乗組員は依然として危険にさらされているとの報告を受けています。乗り込まれた船舶は 10 万重量トン以上から、中には 30 万重量トン以上の場合もありましたので、世界で最も混雑する水路で事件が発生する危険性が高まっています。

バングラデシュ

撤積貨物船とタンカーが、停泊中または錨泊中に被害を受けたと報告されました。沿岸警備隊は迅速に対応し、盗難物を船舶へ返還することができました。船舶は、これらの海域で十分な注意を払い、できるだけ早く IMB Piracy Reporting Centre に事件を報告することが推奨されています。

カリブ海、中米、南米

ペルーの Callao 停泊地からの報告数は、2021 年の最初の 9 か月間の 15 件から 2022 年の同期間には 8 件に減少しています。さらに、ブラジルの Macapa 錨泊地では、8 月 30 日に、錨泊中の撤積船に乗り込んだ侵入者によって、警備員や当直乗組員 6 人が暴行を受け、拘束された事件を含めて、5 件の事件が報告されています。

INTRODUCTION

The ICC International Maritime Bureau (IMB) is a specialised division of the International Chamber of Commerce (ICC). The IMB is a non-profit making organisation, established in 1981 to act as a focal point in the fight against all types of maritime crime and malpractice. The International Maritime Organization (IMO) in its resolution A 504 (XII) (5) and (9) adopted on 20 November 1981, has *inter alia*, urged governments, interest groups and organizations to co-operate and exchange information with each other and the IMB, with a view of maintaining and developing a coordinated action in combating maritime fraud.

Outrage in the shipping industry at the alarming growth in piracy prompted the creation of the IMB Piracy Reporting Centre (IMB PRC) in Kuala Lumpur, Malaysia in October 1992.

The key advantages and services of the PRC are:

- A 24/7 manned operations centre.
- A single point of reporting for all vessels affected by piracy or armed robbery, as they trade through many different jurisdictions.
- Notifying the appropriate response agency of the reported incident and liaising with these agencies until the crew and vessel are safe.
- Warning vessels in the vicinity of a threat by broadcasting sitreps of incidents via Inmarsat-C SafetyNET service.
- Alerting CSOs and vessel managers of incidents via email.
- Keeping the International Maritime Organisation (IMO) updated of reported incidents.
- Assisting local law enforcement in apprehending and bringing the criminals to justice.
- Publish comprehensive quarterly and annual reports detailing incidents reported to the PRC.

The IMB PRC provides all its services *free of charge* to all ships irrespective of crew nationality, ownership, or flag.

This report provides an analysis of 90 global maritime piracy and armed robbery incidents reported to the IMB PRC from 1 January to 30 September 2022. Incidents are occasionally reported late, resulting in changes to the tables and figures in subsequent reports.

Due to the continued debate concerning the Malacca Straits, these narrated incidents are shown separately. Similarly, because of the vast area affected by Somali pirates, these incidents are grouped together with the Gulf of Aden and Red Sea in the narrations section.

DEFINITIONS OF PIRACY & ARMED ROBBERY

The IMB PRC follows the definitions of Piracy as defined in Article 101 of the 1982 United Nations Convention on the Law of the Sea (UNCLOS) and Armed Robbery as defined by the International Maritime Organisation (IMO) in its 26th Assembly session as Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships”.

Article 101 of UNCLOS defines Piracy as:

Definition of Piracy consists of any of the following acts:

(a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed-

(i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;

(ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;

(b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;

(c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

IMO Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships” defines Armed Robbery as:

Armed robbery against ships means any of the following acts:

1. any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State’s internal waters, archipelagic waters and territorial sea;

2. any act of inciting or of intentionally facilitating an act described above

The definitions of piracy and armed robbery are aimed to assign responsibility for responding to these illegal acts. It is worth noting that these definitions do not consider the resulting consequence on the crew, vessel and cargo, which in IMB’s experience ranges from opportunistic theft, cargo theft, taking crew hostage, assault and injury, kidnapping and in some cases death of a crew member.

It is vital that all actual and attempted incidents are reported and recorded at the time of, or shortly after, the incident.

This is the first essential step in the response chain.

Under the definitions of Piracy or Armed Robbery, the IMB PRC reports incidents as follows:

1. **Boarded:** An illegal act of perpetrators successfully gaining access onto the vessel.
2. **Hijacked:** An illegal act of perpetrators successfully gaining access onto the vessel and taking over the control of the vessel from the Master and crew.
3. **Fired Upon:** An illegal act of perpetrators discharging weapons towards the vessel while attempting to gain access onto the vessel.
4. **Attempted:** An illegal act of perpetrators attempting to approach a vessel with possible intention to board but remain unsuccessful due to the timely actions of the crew.

The consequences to the crew, vessel, or cargo, as a result of the above illegal acts:

1. **Crew:** Kidnap, hostage, death, threat, assault, injury, missing.
2. **Vessel:** Damage, especially due to the discharge of weapons or when perpetrators willfully damage vessel equipment and property.
3. **Cargo:** Theft or damage to cargo.

Region specific severity of incidents on Crew, Vessel and Cargo: (Chart G)

As several agencies define and categorize incidents differently, the IMB reports under three generic Severity Levels – I, II, and III determined by the effect the incident has on the crew, vessel and cargo.

Severity Level I: Any incident which has a direct impact on the crew. To include:

- a. Crew being taken hostage, assaulted, injured, killed, kidnapped, missing, threatened.
- b. A hijacking where the command of the vessel is taken over by those boarding.
- c. An incident where the crew retreats into the citadel.

Severity Level II: To include a vessel being fired upon, security teams firing on approaching threat, robbers / pirates identified with weapons of any type (violence is offered) whether boarded or otherwise.

Severity Level III: To include an incident that does not fall into either Level I or Level II

OFF SOMALIA / GULF OF ADEN / RED SEA ATTACK FIGURES UPDATE

From 1 January to 30 September 2022, no incident reported to the IMB PRC for Gulf of Aden.

The international navies patrolling these waters continue to coordinate and liaise with merchant and fishing fleets to identify and apprehend pirate action groups.

All vessels are advised and encouraged to adhere to the BMP 5 recommendations while transiting these waters. Vessels employing Privately Contracted Armed Security Personnel (PCASP) should be cautious and not mistake fishermen for pirates in some heavy fishing areas.

As the IMB PRC continues to monitor the situation in the region, it cautions vessel owners and masters against complacency. Somali pirates still retain the capability and capacity to carry out attacks.

The IMB PRC supports and compliments the role of international navies by relaying all reports received to the response agencies, as well as by broadcasting alerts to vessels via the INMARSAT Safety Net Service.

CONTINUED COOPERATION

The positive information sharing, actions and cooperation between the Indonesian Marine Police (IMP) and the IMB PRC has resulted in an overall decrease in the number of reported incidents in the 10 safe designated areas.

All vessels intending to anchor, waiting for berth or drift, should do so at the designated areas where IMP patrol boats would be stationed to enable them to maximize their resources to provide greater protection for vessels.

Vessels are advised to cooperate by maintaining strict anti-piracy and robbery watches and report all attacks and suspicious sightings to the local Authorities / IMP, as well as the IMB PRC. The IMB PRC will also liaise with local and regional Authorities to render necessary assistance.

In line with the Road Map Program Police Reforms Wave III, the Indonesian Authorities will continue to allocate and position resources and assets in 10 key designated areas of concern, to prevent sea robbery and piracy in and around Indonesian waters.

In January 2021, the IMB was informed that the successful cooperation, resulting in a year on year drop in incidents in almost all areas will continue until further notice.

The IMB thanks the IMP for their support and contribution to the shipping industry.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong and vital cooperation from the Philippine and Malaysian Intel that have provided crucial information relating to the safety of vessels and seafarers, particularly in the Sulu Sea/eastern Sabah waters. The successful cooperation has directly and indirectly saved many lives and properties at sea. The IMB PRC looks forward to the continued cooperation, and thanks both intel agencies for their commitment.

ACKNOWLEDGEMENT

The IMB appreciates the assistance (past and present) and vital cooperation provided by the Coalition naval forces / EU naval force (EUNAVFOR ATALANTA) / MSCHOA / US Navy / French Alindien / NATO / UKMTO / Indian Navy / Iranian Navy / Malaysian Navy / Russian Navy / Chinese Navy / South Korean Navy / Japanese Maritime SDF/ Singapore Navy / Royal Thai Navy / and Yemeni Coast Guard and Navy, for assisting the many vessels that have been attacked by suspected Somali pirates, both in the Gulf of Aden, and off eastern / southern Somali coast, Indian Ocean, Arabian Sea and other areas. The positive actions by the navies including pre-emptive and disruptive counter piracy tactics, resulted in a drop in the number of attacks.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong cooperation from the West African authorities / navies and international navies, especially the Danish, Italian, Russian, Spanish and Portuguese Navies in the Gulf of Guinea. A special thanks to the Nigerian Authorities, particularly the Nigerian Navy and NIMASA, who have continued to provide prompt information, actions and valuable cooperation between agencies. The IMB PRC looks forward to the continued cooperation from the West African authorities / navies and international navies in the area.

ACKNOWLEDGEMENT

The IMB PRC thanks all the masters and vessel owners / operators who have reported incidents to the Centre in a timely manner. It encourages all incidents to be reported in a timely manner.

While the IMB PRC endeavours to always get a meaningful response from regional authorities, the reports also play a crucial role to increase awareness of this crime, which allows for additional resources to be allocated by authorities to tackle the crime of piracy and armed robbery. Transparent statistics from an independent, non-political, international organization such as the IMB PRC can act as a catalyst to achieve this goal.

The IMB PRC wishes all seafarers safe and secure voyages and remains available to assist in any manner.

PIRACY AND ARMED ROBBERY PRONE AREAS AND WARNINGS

All ships are advised to report all piracy and armed robbery incidents and suspicious sightings to local Authorities, their flag state and to the IMB Piracy Reporting Centre as per IMO Cir 1334.

The IMB Piracy Reporting Centre can be contacted at:

24 Hours Anti-Piracy HELPLINE is: +60 3 2031 0014

Mariners are advised to be cautious, take precautionary measures and follow all recommended guidelines, when transiting the following areas:

SOUTH EAST ASIA AND INDIAN SUB CONTINENT

Bangladesh: Robbers normally target ships at anchor. Most incidents reported are at Chittagong anchorages and approaches. Incidents in Bangladesh have fallen significantly over the past few years because of the efforts by the Bangladesh Authorities.

Indonesia: Belawan and Tanjung Priok / Jakarta anchorage and surrounding waters. Pirates / robbers are normally armed with guns / knives and / or machetes. Generally, be vigilant in other areas. Many incidents may have gone unreported. Pirates / robbers normally approach vessels during the night. When spotted and alarm is sounded, the pirates / robbers usually escape without confronting the crew. A strict anti-piracy watch is recommended.

Meetings and continued dialogue between the Indonesian Marine Police (IMP) and the IMB PRC resulted in positive actions by the Indonesian Authorities, who have so far brought down the number of incidents significantly. With the assistance and actions of the IMP, the incidents appear to be decreasing each year with great success. Incidents in Indonesian waters have also dropped dramatically since the cooperation began.

The Indonesian Marine Police have advised all ships intending to anchor, to do so at / near the following areas where Indonesian Marine Police will conduct patrols for greater protection.

(After IMP-IMB started their cooperation, since 2014, no incident has been reported in the Adang Bay region. With this in view, in March 2021, IMP has decided to replace Adang Bay with Tanjung Butan at 01:11.30N – 104:12.30E as Singapore Straits and surrounding waters now classified as risky waters).

The Indonesian Authorities have advised IMB that in accordance with the Road Map Program Police Reforms Wave III, the above given ten locations prevention action of sea robbery / piracy in Indonesian waters will continue until further notice.

Vessels are advised to maintain strict anti-piracy watch and measures and report all incidents and suspicious sightings to the local authorities and the IMB Piracy Reporting Centre. The IMB PRC will also liaise with the local authorities to render necessary assistance.

Malacca Straits: Although the number of incidents has dropped substantially due to the increased and aggressive patrols by the littoral states' authorities since July 2005, vessels are advised to continue maintaining strict anti-piracy / robbery watches when transiting the Straits. Currently, there are no indications as to how long these patrols will continue or when they will be reduced. In some cases, incidents may have gone unreported. Situation currently remains stable.

Malaysia: Bandar Penawar, Johor – incidents reported on anchored vessels. Off Tanjung Piai – incidents reported on vessels underway. Though incidents have stopped, the IMB PRC is monitoring the situation and will liaise with the Malaysian Authorities / MMEA as needed.

In / off Eastern Sabah – Militant activities resulting in several tugs / barges / fishing vessels being attacked and crews kidnapped. There were two kidnapping incidents in 2018, two in 2019 and one in January 2020 off Tambisan, Sabah. The local authorities have beefed up patrols. It was reported that several ASG militants have been captured / killed by the authorities. Militant / kidnapping incidents on merchant ships have stopped due to patrols and actions by both Malaysian and Philippines Authorities. The IMB PRC is monitoring the situation.

Vessels are advised to continue to take precautionary measures and maintain strict anti-piracy watch and measures. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on potential incidents targets / description of militant boats issued on behalf of the Philippines and Malaysian Intel.

Philippines: Pirates / militants in the southern Philippines conduct attacks on vessels in / off Sibutu passage / off Sibutu island / Tawi Tawi / Sulu sea / Celebes sea / off eastern Sabah. They attacked tugs / barges / fishing vessels / yachts / merchant ships to rob and kidnap crews for ransom. These kidnappings by militants have stopped (for merchant ships) since March 2017. In 2018 there were two incidents where crews were kidnapped off Sabah, two in 2019 and one in 2020 where smaller tugs and fishing boats were targeted. These kidnappers are believed to be affiliated with the ASG. The local Authorities have beefed up patrols. It was reported that several ASG militants have been captured / killed by the Authorities. The IMB PRC is monitoring the situation. Vessels are advised to take precautionary measures and maintain strict anti-piracy watch and measures. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on potential incidents locations / targets issued by the Philippines Intel / Malaysian Intel.

Manila / Batangas / Tabangas: Be vigilant. Several past and recent incidents / robberies have been reported.

Singapore Straits: A general warning issued in December 2019 indicating a sudden rise in incidents in Singapore Straits especially during the night is still valid. The incidents are still occurring and increasing. It appears one or more groups are targeting passing ships including tugs / barges to rob them. Authorities have been notified and are aware of the situation. Vessels are advised to remain vigilant and to continue maintaining adequate anti-piracy / robbery watches and measures. Pirates / robbers board ships while underway or while at anchor especially during the night. Pirates / robbers will abort and move away when the alarm is sounded and authorities notified. Therefore, a strict watch is necessary.

South China Sea: Although incidents have stopped in the vicinity off Tioman / off Pulau Aur / off Anambas / Natuna / Mangkai islands / Subi Besar / Merundung areas, vessels are advised to continue to remain vigilant, especially during the night. In the past, several hijackings of small product tankers occurred off the coast of Malaysia, Indonesia, Singapore and in the South China Sea area. This trend

started in April 2014, but the hijackings stopped abruptly in late 2015. It has been reported that some criminals have been arrested by local Authorities both in Malaysia and in Indonesia. There were three incidents reported in 2017 where two tankers were hijacked off Kuantan / Off Pulau Aur / East coast Malaysia. The IMB is monitoring the situation.

WEST AFRICA (Gulf of Guinea) – As a general rule:

- (i) Follow recommendations and guidelines presented in the BMP WA.
- (ii) All crews to keep a vigilant lookout using all available means. Ships to adjust ETA for direct berthing or wait / drift / transit more than 300 nm from coast, if appropriate and agreed by all in venture. Incidents reported up to 261 nm from coast.

Angola (Luanda): Incidents of robberies reported.

Benin (Cotonou): Recently, incidents have dropped. Past incidents reported in / off Benin. Vessels attacked and crews kidnapped. Incidents showed that the pirates / robbers in the area are well armed and violent. Pirates robbed vessels and kidnapped crews for ransom. In the past, tankers were hijacked and part cargo stolen (gas oil).

Cameroon (Douala): Incidents appear to have stopped. Past incidents involved kidnapping of crews.

Equatorial Guinea: Incidents dropped. Past incidents occurred around 40nm from Luba. One incident involved hijacking and the other boarded with criminal intentions.

Gabon (Port Gentil / Owendo anchorage): Incidents / kidnapping of crews occurred more than 70nm offshore.

Ghana (Takoradi / Tema): Robberies have been reported at the anchorages.

Guinea (Conakry): Robberies have been reported at the anchorages.

Ivory Coast (Abidjan): Incidents dropped but remains risky.

Nigeria (Lagos / Apapa, Off Bayelsa / Brass / Bonny Island / Port Harcourt): Pirates / robbers are often well armed, violent and have attacked and hijacked / robbed ships / kidnapped crews along or far from the coast, rivers, anchorages, ports and surrounding waters. Incidents have also been reported up to about 261 nm from the coast. Generally, all waters in / off Nigeria remain highly risky. Vessels are advised to be vigilant as many incidents may also have gone unreported. Kidnapping for ransom remains the biggest risk for crews. Vessels are advised to take additional measures in these high-risk waters. In the past, tankers were also hijacked and part cargo stolen (gas oil).

Togo (Lome): Incidents appear to have stopped. Past attacks reported at anchorage / in / off Togo. Vessels robbed and crews kidnapped. In the past, tankers were also hijacked and part cargo stolen (gas oil).

The Congo: Pointe Noire / Off Point – stay vigilant.

Sao Tome & Principe: Vessels hijacked / attacked and crews kidnapped. Vessels advised to maintain strict anti-piracy watch and measures. Waters are still considered high risk for fishing and merchant vessels although incidents have dropped.

Red Sea / Gulf of Aden / Somalia / Arabian Sea / Indian Ocean: No recent reported piracy attacks. There were several suspicious reports. Although the opportunity for incidents has reduced, the Somali pirates continue to possess the capability and capacity to carry out incidents. All merchant ships are advised to adhere to the recommendations in the latest BMP while transiting in these waters. The

IMB PRC will continue to alert and broadcast information to all ships in the region via Inmarsat EGC Safety Net.

Although no reported incidents, the threat still exists in the waters off the southern Red Sea / Bab el Mandeb, Gulf of Aden including Yemen and the northern Somali coast, Arabian sea / off Oman, Gulf of Oman and off the eastern and southern Somali coast. In the past, vessels have been targeted off Kenya, Tanzania, Seychelles, Madagascar, Mozambique, as well as in the Indian ocean, and off the west and south coasts of India, and west Maldives. Be vigilant.

Generally, Somali pirates tend to be well armed with automatic weapons, RPGs and sometimes use skiffs launched from mother vessels, which may be hijacked fishing vessels or dhows. Masters and ship owners are encouraged to register and report their vessels as per the latest BMP procedures and ensure that their vessel is hardened prior to entering the high-risk area. While transiting through these waters it is essential to maintain a 24-hour visual and radar watch. Keeping in mind the warnings and alerts for the area, an early sighting / detection of an approaching skiff will enable an accurate assessment, allowing the Master and PCASP to make informed decisions to keep clear of small boats, dhows, fishing vessels and, if necessary, take evasive actions and request assistance as needed.

Masters are reminded that fishermen in this region may try to protect their nets by attempting to aggressively approach merchant vessels. Some of the fishermen may be armed to protect their catch and they should not be confused with pirates.

Vessels transiting in / off Yemen / Gulf of Aden: Security risk due to civil war in Yemen. Vessels have been fired upon and approached. (not piracy related).

Vessels transiting Straits of Hormuz / Gulf of Oman / Off Iran – a number of incidents reported in 2021 involving explosions and unauthorised boarding. (not piracy related).

SOUTH AND CENTRAL AMERICA AND THE CARIBBEAN WATERS

Brazil (Macapa): Incidents increasing. Waters remain risky. Stay vigilant.

Colombia (Cartagena): Incidents have dropped. Past incidents reported at anchorages, river passage and pilot boarding ground. Stay vigilant.

Ecuador (Guayaquil): Incidents have stopped. Past incidents reported at anchorage / river passage with pilot. Robbers well-armed. Fired upon.

Haiti (Port Au Prince): Armed robberies. Maintain watch and stay vigilant.

Mexico (Puerto Dos Bocas): Incidents dropped. Past reported incidents – pirates / robbers in this area armed with guns.

Peru (Callao): Incidents continuing. Maintain vigilant watch and employ anti-piracy measures.

Venezuela (Puerto La Cruz / Puerto Jose): Although incidents have stopped, vessels are still reminded to maintain strict anti-piracy watch and measures especially at anchor.

EASTERN EUROPE/UKRAINE

Not piracy related: Ukraine and Russia conflict: stay clear of Ukrainian coast. Mines reported in the Black Sea.

IMB Maritime Security Hotline

The International Maritime Bureau (IMB) has a dedicated hotline for seafarers, port workers, shipping agents, shipyard personnel, brokers, stevedores, and all concerned parties to report any information that they may have seen / heard / known etc. relating to any maritime crime including terrorism, piracy and other illegal activities. All information reported will be treated in strict confidence and will be passed on to relevant Authorities for further action. Maritime crime and security concerns us all and with your help, we can try to minimize the risks and help save lives and property.

The Maritime Security Hotline can be contacted 24 hours every day at:

TRENDS

Ninety incidents of piracy and armed robbery against ships were reported to the IMB Piracy Reporting Centre (PRC) in the first nine months of 2022. This compares to 97 incidents in the same period last year and the lowest recorded figure since 1992.

Perpetrators were successful in gaining access to the vessels in 95% of the reported incidents which are broken down as 85 vessels boarded, four attempted attacks, and one vessel hijacked. In many of the cases, vessels were either at anchor or steaming when they were boarded, with nearly all the incidents occurring during the hours of darkness.

Weapons, guns and knives were wielded by the criminals in 43 incidents. Though these are amongst the lowest reports in 25 years, violence to crew continues with 27 crew taken hostage, six assaulted and five threatened. The risk to crew, however petty or opportunistic the incident, remains real.

In the first nine months of 2022, 13 incidents have been reported in the Gulf of Guinea region. Of these 11 incidents fall under the definition of Armed Robbery and two as Piracy. Compared to the same period of 2021, there were 13 Armed Robbery incidents and 14 viewed as Piracy. This is a positive and significant decline in the number of reported incidents in the region. The efforts of the coastal authorities of the Gulf of Guinea need to be commended. While the decline is welcome, the sustained and continued efforts of the coastal authorities and the presence of the international navies is essential to safeguard seafarers and long-term regional and international shipping and trade.

The number of reports from Callao anchorage in Peru has dropped from 15 in the first nine months of 2021 to eight in the same period of 2022.

Conversely, incidents in the Singapore Straits continue to increase with 31 incidents reported in the first nine months of 2022 compared to 21 in the same period last year. Vessels underway were boarded in all 31 reports and in most cases ship stores or properties stolen. The IMB PRC believes there is a degree of under reporting as well as late reporting of incidents from these waters and encourages Masters to report all incidents as early as possible so that local authorities are able to identify, investigate and apprehend the perpetrators. While considered low level opportunistic crimes, crews continue to be at risk with weapons reported in at least 16 incidents, including some involving very large bulk carriers and tankers.

Since 1991 the IMB Piracy Reporting Centre's 24-hour manned center remains a single point of contact to report the crimes of piracy and armed robbery. The Centre has not only assisted ships in a timely manner, it provides the maritime industry, response agencies and governments with transparent data – received directly from the Master of the vessel under attack - or its owners.

The IMB PRC's prompt forwarding of reports and liaison with response agencies, its broadcasts to shipping via GMDSS Safety Net Services and email alerts to CSOs, all provided free of cost, has helped the response against piracy and armed robbery and the security of seafarers globally.

OBSERVATIONS

Narrations of the 90 attacks for 01 January to 30 September 2022 are listed on pages 28 to 43. The following serious incidents, in chronological sequence are described in more detail.

Ghana:

On 3 April 2022, a Marshall Island flagged Bulk Carrier Arch Gabriel, was approached and boarded by pirates while drifting at position Latitude 01:31.2 North and Longitude 001:30.7 East, around 261nm SE of Accra, Ghana at approximately 1848 UTC.

On being notified of the incident, the IMB Piracy Reporting Centre immediately alerted and liaised with the Regional Authorities and international warships to request their assistance. An Italian Navy warship and its helicopter responded and proceeded to render assistance resulting in the crew and ship being safe. The vessel proceeded to a safe port under the escort of the warship.

Ivory Coast:

On 24 January 2022, a Marshall Islands flagged Product Tanker MT B. Ocean was attacked and hijacked by armed pirates while underway at position Latitude 04:22.7 North and Longitude 004:10.5 West, around 59nm SSW of Abidjan, Ivory Coast at approximately 2315 UTC. Around 9 to 11 pirates armed with guns attacked, boarded, and hijacked the drifting tanker.

All crew including two security personnel were taken hostage and detained initially on the bridge and then moved to the crew mess room. All communication and navigation equipment were switched off and the bosun was instructed to paint over the tanker's name written on top of the bridge. The pirates were heard communicating with another vessel. They then navigated the tanker using their own GPS equipment to rendezvous with the offtake vessel. While enroute the bosun was told to prepare the manifold. Once the tanker was alongside the offtake vessel, the chief officer and bosun were told to commence discharge operations.

After around six hours the cargo operations were stopped. The pirates disembarked and stole part of the tanker's cargo as well as ship and crew cash, crew personal belongings and ship's properties before escaping. All 17 crew and two security personnel reported safe.
