INTRODUCTION

The ICC International Maritime Bureau (IMB) is a specialised division of the International Chamber of Commerce (ICC). The IMB is a non-profit making organisation, established in 1981 to act as a focal point in the fight against all types of maritime crime and malpractice. The International Maritime Organization (IMO), in its resolution A 504 (XII) (5) and (9) adopted on 20 November 1981, has *inter alia* urged governments, interest groups and organizations to co-operate and exchange information with each other and the IMB, with a view of maintaining and developing a coordinated action in combating maritime fraud.

Outrage in the shipping industry at the alarming growth in piracy prompted the creation of the IMB Piracy Reporting Centre (IMB PRC) in Kuala Lumpur, Malaysia in October 1992.

The key advantages and services of the PRC are:

- A 24/7 manned operations centre.
- A single point of reporting for all vessels affected by piracy or armed robbery, as they trade through many different jurisdictions.
- Notifying the appropriate response agency of the reported incident and liaising with these agencies until the crew and vessel are safe.
- Warning vessels in the vicinity of a threat by broadcasting sitreps of incidents via Iridium and Inmarsat-C SafetyNET service.
- Alerting CSOs and vessel managers of incidents via email.
- Keeping the International Maritime Organisation (IMO) updated on reported incidents.
- Assisting local law enforcement in apprehending and bringing the criminals to justice.
- Publishing comprehensive quarterly and annual reports detailing incidents reported to the PRC.

The IMB PRC provides all its services *free of charge* to all ships irrespective of crew nationality, ownership, or flag.

This report is an analysis of 90 global maritime piracy and armed robbery incidents reported to the IMB PRC from 1 January to 30 June 2025. Incidents are occasionally reported late, resulting in changes to the tables and figures in subsequent reports.

Due to the continued debate concerning the Malacca Straits, these narrated incidents are shown separately.

DEFINITIONS OF PIRACY & ARMED ROBBERY

The IMB PRC follows the definitions of Piracy as defined in Article 101 of the 1982 United Nations Convention on the Law of the Sea (UNCLOS) and Armed Robbery as defined by the International Maritime Organisation (IMO) in its 26th Assembly session as Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships”.

Article 101 of UNCLOS defines Piracy as:

Definition of Piracy consists of any of the following acts:

(a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed-

(i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;

(ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;

(b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;

(c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

IMO Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships” defines Armed Robbery as:

Armed robbery against ships means any of the following acts:

.1 any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State’s internal waters, archipelagic waters and territorial sea;

.2 any act of inciting or of intentionally facilitating an act described above

The definitions of piracy and armed robbery are aimed to assign responsibility for responding to these illegal acts. It is worth noting that these definitions do not consider the resulting consequence on the crew, vessel and cargo, which in IMB’s experience ranges from opportunistic theft, cargo theft, taking crew hostage, assault and injury, kidnapping and in some cases death of a crew member.

It is vital that all actual and attempted incidents at the time of, or shortly after the incident, are reported and recorded.

This is the first essential step in the response chain.

Under the definitions of Piracy or Armed Robbery, the IMB PRC reports incidents as follows:

1. **Boarded:** An illegal act of perpetrators successfully gaining access onto the vessel.
2. **Hijacked:** An illegal act of perpetrators successfully gaining access onto the vessel and taking over the control of the vessel from the Master and crew.
3. **Fired Upon:** An illegal act of perpetrators discharging weapons towards the vessel while attempting to gain access onto the vessel.
4. **Attempted:** An illegal act of perpetrators attempting to approach a vessel with possible intention to board but remain unsuccessful due to the timely actions of the crew.

The consequences to the crew, vessel, or cargo, as a result of the above illegal acts:

1. **Crew:** Kidnap, hostage, death, threat, assault, injury, missing.
2. **Vessel:** Damage, especially due to the discharge of weapons or when perpetrators willfully damage vessel equipment and property.
3. **Cargo:** Theft or damage to cargo.

Region specific severity of incident on Crew, Vessel and Cargo: (Chart G)

As several agencies define and categorize incidents differently, the IMB reports under three generic Severity Levels – I, II, and III determined by the effect the incident has on the crew, vessel and cargo.

Severity Level I: Any incident which has a direct impact on the crew. To include:

- a. Crew being taken hostage, assaulted, injured, killed, kidnapped, missing, threatened.
- b. A hijacking where the command of the vessel is taken over by those boarding.
- c. An incident where the crew retreats into the citadel.

Severity Level II: To include a vessel being fired upon, security teams firing on approaching threat, robbers / pirates identified with weapons of any type (violence is offered) whether boarded or otherwise.

Severity Level III: To include an incident that does not fall into either Level I or Level II

OFF SOMALIA / GULF OF ADEN / RED SEA ATTACK FIGURES UPDATE

From 1 January to 30 June 2025, three vessels were hijacked in the waters off Somalia.

The international navies patrolling these waters continue to coordinate and liaise with merchant and fishing fleets to identify and apprehend pirate action groups.

The IMB PRC cautions vessel owners and masters against complacency. Recent incidents demonstrate the continued capability and capacity of the Somali pirates to target vessels in and off Somalia. Past incidents recorded over 1000nm from the Somali coast.

All vessels are advised and encouraged to adhere to the latest BMP recommendations while transiting these waters. Vessels employing Privately Contracted Armed Security Personnel (PCASP) should be cautious and not mistake fishermen for pirates.

The IMB PRC continues to monitor the situation in the region. Although three Somali piracy incidents have been recorded, several hijackings of dhows and fishing may have gone unreported.

The IMB PRC supports and compliments the role of international navies by relaying all reports received to the response agencies, as well as by broadcasting alerts to vessels via the GMDSS Safety Net Service on incidents of piracy and armed robbery.

The IMB PRC is also aware of the non-piracy related targeting of vessels by Houthi militants in the Gulf of Aden / Red Sea / Bab El Mandeb waters particularly off Yemen using drones and missiles. All vessels are urged to register and report as per the latest edition of the BMP.

CONTINUED COOPERATION

The positive information sharing, actions, and cooperation between the Indonesian Marine Police (IMP) and the IMB PRC has resulted in an overall decrease in the number of reported incidents in the 10 safe designated areas.

All vessels intending to anchor, waiting for berth or drift should do so at the designated areas where IMP patrol boats would be stationed to enable them to maximise their resources to provide greater protection for vessels.

Vessels are advised to cooperate by maintaining strict anti-piracy and robbery watches and report all attacks and suspicious sightings to the local Authorities / IMP, as well as the IMB PRC. The IMB PRC will also liaise with local and regional Authorities to render necessary assistance.

In line with the Road Map Program Police Reforms Wave III, the Indonesian Authorities will continue to allocate and position resources and assets in 10 key designated areas of concern, to prevent sea robbery and piracy in and around Indonesian waters.

The IMB thanks the IMP for their support and contribution to the safety of the shipping industry.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong and vital cooperation from the Philippine and Malaysian Intel that have provided crucial information relating to the safety of vessels and seafarers, particularly in the Sulu Sea/eastern Sabah waters. The successful cooperation has directly and indirectly saved many lives and properties at sea. The IMB PRC looks forward to the continued cooperation, and thanks the intel agencies for their commitment.

ACKNOWLEDGEMENT

The IMB appreciates the assistance (past and present) and vital cooperation provided by the Coalition naval forces / EU naval force (EUNAVFOR ATALANTA) / MSCIO / US Navy / French Alindien / NATO / UKMTO / Indian Navy / Iranian Navy / Malaysian Navy / Russian Navy / Chinese Navy / South Korean Navy / Japanese Maritime SDF/ Singapore Navy / Royal Thai Navy / and Yemeni Coast Guard and Navy, for assisting the many vessels that have been attacked by suspected Somali pirates, both in the Gulf of Aden, and off eastern / southern Somali coast, Indian Ocean, Arabian Sea and other areas. The positive actions by the navies, including pre-emptive and disruptive counter piracy tactics, resulted in a drop in the number of attacks.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong cooperation from the West African authorities / navies and international navies (past and present), especially the Danish, Italian, Russian, Spanish and Portuguese Navies in the Gulf of Guinea. A special thanks to the Nigerian Authorities, particularly the Nigerian Navy and NIMASA, who have continued to provide prompt information, actions, and valuable cooperation between agencies. The IMB PRC looks forward to the continued cooperation from the West African authorities / navies and international navies in the area.

ACKNOWLEDGEMENT

The IMB PRC thanks all the masters and vessel owners / operators who have reported incidents to the Centre. It encourages all incidents to be reported in a timely manner.

While the IMB PRC endeavours to always get a meaningful response from regional authorities, the reports also play a crucial role to increase awareness of this crime. This allows for additional resources to be allocated by authorities to tackle the crime of piracy and armed robbery.

Transparent statistics from an independent, non-political, international organization such as the IMB PRC can act as a catalyst to achieve this goal.

PIRACY AND ARMED ROBBERY PRONE AREAS AND WARNINGS

All vessels are advised to report all piracy and armed robbery incidents and suspicious sightings to local Authorities, their flag state and to the IMB Piracy Reporting Centre as per IMO Cir 1334.

The IMB Piracy Reporting Centre can be contacted at:

24 Hours Anti-Piracy HELPLINE is: +60 3 2031 0014

E-mail: piracy@icc-ccs.org / imbkl@icc-ccs.org

Tel: +60 3 2078 5763

WhatsApp / Telegram: +60 11 2659 3057. (Photograph or video submission encouraged).

Mariners are advised to be cautious, take precautionary measures and follow all recommended guidelines, when transiting the following areas:

SOUTH EAST ASIA AND INDIAN SUB CONTINENT

Bangladesh: Most incidents are reported at anchorages and their approaches. The number of incidents in Bangladesh has decreased significantly in recent years due to the efforts of the authorities. Past and recent incidents reported at Chattogram/Chittagong anchorage. Maintain a strict watch. The IMB PRC is monitoring the situation.

Indonesia: Tanjung Priok / Jakarta / Belawan and surrounding waters. Pirates / robbers are normally armed with guns / knives and / or machetes. Generally, be vigilant in other areas in Indonesian waters. Many incidents may have gone unreported. Pirates / robbers normally approach vessels during the night. When spotted and alarm is sounded, the pirates / robbers usually escape without confronting the crew. A strict anti-piracy watch during the night is recommended.

Meetings and continued dialogue between the Indonesian Marine Police (IMP) and the IMB PRC resulted in positive actions by the Indonesian authorities, who have so far brought down the number of incidents significantly. With the assistance and actions of the IMP, the incidents appear to be curtailed.

The Indonesian Marine Police have advised all ships intending to anchor to do so at / near the following areas where Indonesian Marine Police will conduct patrols for greater protection:

(After IMP-IMB started the cooperation, since 2014, no incident has been reported in the Adang Bay region. With this in view, in March 2021, IMP has decided to replace Adang Bay with Tanjung Butan at 01:11.30N – 104:12.30E as Singapore Straits and surrounding waters are now considered as risky waters).

1. Belawan: 03:55.00N-098:45.30E
2. Dumai: 01:42.00N-101:28.00E
3. Nipah: 01:07.30N-103:37.00E
4. Tanjung Berakit/Bintan: 01:23.30N-104:42.30E
5. Tanjung Priok: 06:00.30S-106:54.00E
6. Gresik: 07:09.00S-112:40.00E
7. Taboneo: 03:41.30S-114:28.00E
8. Tanjung Butan: 01:11.30N-104:12.30E (effective 12 March 2021)
9. Muara Berau: 00:17.00S-117:36.00E
10. Balikpapan: 01:22.00S-116:53.00E

The Indonesian authorities have advised IMB that in accordance with the Road Map Program Police Reforms Wave III, the above given ten locations prevention action of sea robbery / piracy in Indonesian waters will continue until further notice.

Vessels are advised to maintain strict anti-piracy watch and measures and report all incidents and suspicious sightings to the local authorities and to the IMB Piracy Reporting Centre. The IMB PRC will also liaise with the local authorities to render necessary assistance.

Malacca Straits: Although the number of incidents has dropped substantially due to increased and aggressive patrols by the littoral states' authorities since July 2005, vessels are advised to continue maintaining strict anti-piracy / robbery watches at night when transiting the Straits. Currently, there are no indications as to how long these patrols will continue or when they will be reduced. In some cases, incidents may have gone unreported. Situation currently remains stable as only one incident was reported in 2024 and so far, none in 2025.

Malaysia: Past incidents reported at/off Bandar Penawar and off Tanjung Piai, Johor. Though incidents have stopped, the IMB PRC is monitoring the situation and will liaise with the Malaysian Authorities / MMEA as needed.

In / off Eastern Sabah – kidnapping of merchant ship's crew by ASG has stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Philippines: In / off Sibutu passage / off Sibutu island / Tawi Tawi / Sulu Sea / Celebes Sea / off eastern Sabah – past incidents included crew kidnappings. These kidnapping incidents have stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Manila: Be vigilant. Several past incidents / robberies have been reported.

Singapore Straits: A General Warning first issued in December 2019 indicating a sudden rise in incidents in Singapore Straits especially, during the night is still valid. The incidents are still occurring to date. It appears that one or more groups are targeting passing ships, including tugs / barges to rob them. Authorities have been notified and are aware of the situation. Vessels are advised to remain vigilant and to continue maintaining adequate watches and measures. Robbers board vessels while underway or while at anchor especially during the night. Robbers will abort and move away when the alarm is sounded, and the authorities notified. Therefore, a strict watch is necessary. Waters now considered highly risky as Jan to June 2025 incidents increased more than 3-fold compared to same period in 2024.

South China Sea: Although incidents have stopped in the vicinity off Tioman / off Pulau Aur / off Anambas / Natuna / Mangkai islands / Subi Besar / Merundung areas, vessels are advised to continue to remain vigilant, especially during the night. In the past, several hijackings of small product tankers occurred off the coast of Malaysia, Indonesia, Singapore and in the South China Sea area. This trend started in April 2014, but the hijackings stopped abruptly in late 2015. It has been reported that some criminals have been arrested by local authorities both in Malaysia and in Indonesia. There were three

incidents reported in 2017 where two tankers were hijacked off Kuantan / Off Pulau Aur / East coast Malaysia. The IMB continues to monitor the situation in these waters.

WEST AFRICA (Gulf of Guinea) – As a general rule:

- (i) Follow recommendations and guidelines presented in the BMP WA.
- (ii) All crews to keep a vigilant lookout using all available means. Ships advised to adjust ETA for direct berthing or wait / drift / transit more than 300nm from the coast, if appropriate and agreed by all in venture. Past incidents reported up to 300nm from the coast.

Angola (Luanda): Incidents of robberies reported. Be vigilant and maintain watch.

Benin (Cotonou): In 2024, a fishing vessel captain was kidnapped at Cotonou anchorage. Previous incidents in the area involved crew kidnappings by well-armed and violent pirates / robbers. These pirates / robbers have robbed vessels and abducted crews for ransom. Tankers were also hijacked in the past, with part of their cargo, such as gas oil, stolen. While these incidents have ceased since 2022, vessels are still advised to remain vigilant and implement strict security measures.

Cameroon (Douala): Incidents dropped / none reported. However, stay alert due to past incidents such as vessels being fired upon while at anchor and crew members being kidnapped.

Equatorial Guinea: In 2024, there were two incidents off Bioko Island. One occurred approximately 28nm from the island, and the other around 45nm, resulting in the kidnapping of ship crew members. Additionally, two more incidents were reported about 80nm west of Bata, with one involving gunfire and the other a boarding. In 2025, one incident reported 40nm off Bata where ship was attacked but crew managed to escape by hiding in citadel.

Gabon (Port Gentil / Owendo anchorage): In 2024, one incident was reported at the anchorage. Previous crew kidnappings occurred over 70nm offshore.

Ghana (Takoradi): Two incidents occurred in 2024 and one in 2025 at Takoradi anchorages. Previous incidents have been reported in the area. Maintain strict watches.

Guinea (Conakry): One robbery incident reported in 2024, with previous incidents of robberies reported at anchorages.

Ivory Coast (Abidjan): Incidents reported at anchorage. Maintain watch.

Nigeria (Lagos / Apapa, Off Bayelsa / Brass / Bonny Island / Port Harcourt): Pirates / robbers in Nigerian waters are armed, violent, and have attacked vessels and kidnapped crews near or far from the coast. Incidents have occurred up to 300nm from shore. All waters off Nigeria are considered high-risk, with a significant threat of kidnapping for ransom. Vessels should remain vigilant as some incidents may go unreported. Tankers have been hijacked in the past, with cargo theft, particularly of gas oil. Extra precautions are recommended for vessels operating in these dangerous waters.

Incidents in Nigeria have decreased significantly, but vessels should still remain vigilant as waters are still risky.

Togo (Lome): Incidents of robbery and kidnapping of crews in Togo have ceased since 2021. However, vessels are still advised to remain vigilant and implement strict security measures due to past attacks at Togo anchorage, where tankers were hijacked and part of their cargo stolen.

The Congo: Incidents have ceased. Previous incidents were reported off Pointe Noire.

Sao Tome & Principe: Incidents involved vessel hijackings, attacks, and crew kidnappings. Two recent incidents in 2025 occurred where a ship was hijacked/boarded, and crew kidnapped. Vessels are advised to maintain strict anti-piracy watch and measures. Waters remain risky for fishing and merchant vessels.

Sierra Leone: (off Turtle Islands). There was one reported hijacking incident in the past.

EAST AFRICA / GOA / RED SEA

Red Sea / Gulf of Aden / Somalia / Arabian Sea / Indian Ocean: In 2024, eight piracy incidents and hijackings reported off Somalia / Gulf of Aden. On 14 December 2023 the first successful hijacking of a merchant vessel by Somali pirates since 2017 was reported. Somali pirates have the capability to target vessels over 1000nm from coast using mother vessels. In 2025, two fishing vessels and a dhow were hijacked.

The recent successful incidents demonstrate the continued capabilities of these criminals. Vessels are advised to be vigilant, maintain strict anti-piracy watch and adhere to the recommendations in the latest BMP, while transiting in these waters. The IMB PRC will continue to alert and broadcast information to all ships in the region via GMDSS Safety Net Service.

In the past, Somali pirates have conducted their acts in waters off the southern Red Sea / Bab El Mandeb, Gulf of Aden including Yemen and the northern Somali coast, Arabian sea / off Oman, Gulf of Oman and off the eastern and southern Somali coast. Vessels have also been targeted off Kenya, Tanzania, Seychelles, Madagascar, Mozambique, as well as in the Indian ocean and off the west and south coasts of India and west Maldives.

Generally, Somali pirates tend to be well armed with automatic weapons and RPGs. They sometimes use skiffs launched from mother vessels, which may be hijacked fishing vessels or dhows. Masters and ship owners are encouraged to register their vessel and report as per the latest BMP procedures, ensure their vessel is hardened prior to entering these waters and to maintain a 24-hour visual and radar watch. Keeping in mind the warnings and alerts for the area, an early sighting / detection of an approaching skiff will enable an accurate assessment, allowing the Master and PCASP to make informed decisions to keep clear of small boats, dhows, fishing vessels and, if necessary, take evasive actions and request assistance as needed.

Masters are reminded that fishermen in this region may try to protect their nets by attempting to aggressively approach merchant vessels. Some of the fishermen may be armed to protect their catch and they should not be confused with pirates.

Vessels transiting in / off Yemen / Gulf of Aden / Southern Red Sea / Bab El Mandeb: There is a heightened security risk to vessels transiting these waters. Vessels are being approached by skiffs and hailed via VHF allegedly by Yemeni naval forces to alter course into Yemeni waters. Masters are encouraged to be cautious, ignore these calls and immediately report any such activities to Coalition warships on VHF Ch 16.

Not piracy related: Ships transiting Gulf of Aden, Southern Red Sea and Bab El Mandeb are also advised to be vigilant and take precautionary measures as vessels have been targeted by missiles and unmanned aerial/seaborne vehicles. Although recently no incidents were reported but the conditions and situation may change very quickly due to current political situation. With the recent escalating tensions between Israel, Iran and the US, the Houthis in Yemen had issued threats to resume targeting ships in the Red Sea/Gulf of Aden.

Vessels transiting Straits of Hormuz / Gulf of Oman / Off Iran – incidents are not piracy related. Unauthorised boardings have been reported. Currently, ships experienced high levels of electronic interference particularly affecting GNSS systems.

SOUTH AND CENTRAL AMERICA AND CARIBBEAN WATERS

Brazil (Macapa): Incidents have dropped and recently appears stopped. However, ships are advised to continue to stay vigilant.

Colombia (Cartagena): Past incidents reported at anchorages, river passage and pilot boarding ground. Stay vigilant.

Ecuador (Guayaquil): Incidents have stopped. Past incidents reported at anchorage / river passage with pilot. Robbers well-armed. Fired upon.

Haiti (Port Au Prince / Lafiteau): Incidents dropped but one incident – abduction of crew reported in 2025. Advised to continue maintaining watch and to stay vigilant.

Mexico (Puerto Dos Bocas): Incidents dropped. Past reported incidents - pirates / robbers in this area armed with guns.

Peru (Callao): Despite no reported incidents, waters remain risky. Maintain vigilant watch and employ anti-piracy measures.

Venezuela (Puerto La Cruz / Puerto Jose / Guanta): Although incidents have stopped, vessels are still reminded to maintain strict anti-piracy watch and measures especially at anchor.

EASTERN EUROPE/UKRAINE

Not piracy related: Ukraine and Russia conflict: stay clear of Ukrainian coast. Mines reported in the Black Sea.

IMB Maritime Security Hotline

The International Maritime Bureau (IMB) has a dedicated hotline for seafarers, port workers, shipping agents, shipyard personnel, brokers, stevedores and all concerned parties to report any information that they may have seen / heard / known etc. relating to any maritime crime including terrorism, piracy and other illegal activities. All information reported will be treated in strict confidence and will be passed on to relevant authorities for further action. Maritime crime and security concerns us all and with your help, we can try to minimize the risks and help save lives and property.

Trends within areas of continued concern

CHART K: SE Asia – Singapore Straits – Total number of reported incidents

CHART L: West Africa – Gulf of Guinea – Total number of reported incidents

CHART M: East Africa – Waters off Somalia / Gulf of Aden – Total number of reported incidents

TRENDS

Ninety incidents of piracy and armed robbery against ships were reported to the IMB Piracy Reporting Centre (IMB PRC) in the first half of 2025 compared to 60 and 65 in the same periods of 2024 and 2023 respectively. This marks the highest number of reported incidents since H1 2020, when 98 incidents were recorded.

The H1 2025 figures are broken down as 79 vessels boarded, six attempted attacks, four hijackings and one vessel fired upon. Perpetrators successfully boarded 92% of vessels targeted globally.

Violence towards crew continues with 40 crew been taken hostage compared to 85 in H1 2024 and 36 in H1 2023. A further 16 crew were kidnapped compared to 11 and 14 in the same period over the past two years. Crew continue to be at risk with five being threatened and a further three each assaulted and injured.

Guns and knives were reported in 55 percent of the reported incidents compared to 57 and 40 percent in the same period over the past two years.

The spike in overall numbers is attributed also entirely to increased incidents in the Singapore Straits accounting for 57 of the 90 H1 reports.

The number of incidents in the Singapore Straits has already surpassed the annual 2024 incidents by over 30 percent, with vessels successfully boarded in 95% of the H1 reports. Compared to H1 2024, 15 incidents were reported in these waters.

Although viewed as relatively low-level incidents, this exponential year on year rise is concerning.

Of the 57 reported incidents, 14 bulk carriers and tankers, over 150,000 DWT were targeted with 13 being successfully boarded. In 35 incidents guns / knives were reported, compared to 10 and eight in the same period over the past two years. There has been a rise in violence against the crew, with 13 being held hostage for the duration of the incident, five being threatened, three injured and one being assaulted.

On 26 May 2025, six robbers armed with a gun and knives boarded a Maltese flagged Bulk Carrier while underway in the Singapore Straits. One crew member was assaulted and injured during the incident.

In a late reported incident, on 27 February 2025, a Singapore flagged Product Tanker was boarded by armed robbers while underway in the Singapore Straits. While making their escape with stolen ships' engine spares the robbers attacked and seriously injured one crew requiring the vessel to divert into Singapore anchorage where the crew was disembarked to receive shore medical assistance.

The Singapore Authorities are commended for their efforts in boarding most vessels reporting incidents to carry out investigations.

Incidents in the Gulf of Guinea continue to remain at low levels with Regional Authorities commended for their efforts and encouraged to sustain them. Twelve incidents were reported in H1 2025, compared to 10 and 14 in the same period over the past two years. While this trend is worth aspiring to, crew safety and wellbeing are not yet guaranteed. The region accounts for 87 percent of the number of crew kidnapped globally in H1 2025. The IMB continues to encourage all seafarers to exercise caution while in these waters and continues to follow the recommended practices in the latest editions of the industry led BMP.

Unusually, off Haiti, on 02 April 2025, a Panamanian flagged Bulk Carrier, was boarded by armed individuals who assaulted a crew member with a gun, then abducted two crew and escaped. The incident was reported to the Haitian Coast Guard.

Since April 2025, no new incidents have been reported off Somalia. There remains a continued threat of potential piratical incidents in these waters requiring all mariners to adhere to the latest guidelines in the industry led BMP. Particularly as the SW Monsoon subsides over the coming months.

The IMB encourages Masters to promptly report all incidents, which allows for a clearer understanding of the risk to crew.

Since 1991 the IMB Piracy Reporting Centre's 24-hour manned center remains a single point of contact to report the crimes of piracy and armed robbery. The Centre has not only assisted ships in a timely manner, it also provides the maritime industry, response agencies and governments with transparent data – received directly from the Masters of the vessel under attack – or its owners.

The IMB PRC's prompt forwarding of reports and liaison with response agencies, its broadcasts to shipping via GMDSS Safety Net Services and email alerts to CSOs, all provided free of cost, has helped the response against piracy and armed robbery and the security of seafarers globally.

OBSERVATIONS

Narrations of the 90 attacks for 01 January to 30 June 2025 are listed on pages 29 to 44. The following serious incidents, in chronological sequence are described in more detail.

Ghana:

On 27 March 2025, a Ghanaian flagged Fishing Vessel was boarded by five armed pirates at position Latitude: 05:24.66 North and Longitude 000:01.98 West, around 12nm SE of Accra, Ghana, at around 1932 UTC. After boarding the pirates fired three warning shots and ordered the crew to lie on the deck. They then stole crew mobile phones and properties and locked them in a cabin. Before escaping, the pirates damaged communication equipment and kidnapped three crew. On emerging from the cabin, the crew sailed to Tema.

Haiti:

On 02 April 2025, a Panamanian flagged Bulk Carrier, MV Century Royal was boarded by armed individuals while drifting at position Latitude: 18:34.68 North and Longitude 072:27.16 West, around 6nm West of Port Au Prince, Haiti, at around 0300 UTC. Armed individuals boarded the ship and assaulted a crew member with a gun. The other crew retreated into their cabins and the engine room. The assailants then abducted two crew members and escaped. The incident was reported to the Haitian Coast Guard.

Somalia:

On 07 February 2025, a Yemeni flagged Dhow, Al Najma No. 481 was boarded and hijacked by six armed perpetrators while underway at position Latitude 07:54 North and Longitude 049:56 East, around 6nm SE of Eyl, Somalia during night hours. The crew and one security guard were taken hostage. The guard was later released. Reports indicated that the perpetrators left the dhow on or before 13 February 2025 after stealing the crew personal effects and small boats belonging to the dhow. All crew reported safe.

On 17 February 2025, a Yemeni flagged Fishing Vessel, Saytuun 2 was boarded and hijacked by six armed perpetrators while underway off Garmaal, North of Eyl, Somalia, at approximately 0001 UTC. The perpetrators took hostage the captain and four crew members and released the remaining crew. On 23 February 2025, a Spanish naval warship identified, intercepted and boarded the hijacked Fishing Vessel. The crew indicated that the perpetrators had left the vessel. All crew safe.

On 16 March 2025, a Yemeni flagged Fishing Vessel, Al-Hidaya 1 was boarded and hijacked by armed hijackers while underway off Durdura, Somalia, at approximately 1000 UTC. The perpetrators took eight crew members hostage. On 20 March 2025, the hijackers abandoned the Fishing Vessel. EUNAVFOR Atlanta conducted a friendly approach on 21 March 2025 to investigate. The eight crew members are reported safe.

Sao Tome and Principe:

On 17 March 2025, a Panamanian flagged Bitumen Tanker was boarded and hijacked by 10 armed pirates while underway at position Latitude 01:17.8 North and Longitude 008:01.1 East, around 37nm SE of Santo Antonio, Sao Tome and Principe, at approximately 1845 UTC. The crew retreated into the citadel, which the pirates were able to breach. Before escaping the pirates damaged the ship's equipment, stole crew and ship properties, cash and kidnapped 10 crew members. The remaining eight crew members sailed the tanker to a safe port. The incident was reported to the Authorities.

On 30 May 2025, a Curacao flagged Refrigerated Cargo Ship was boarded by seven armed pirates while underway at position Latitude 02:30 North and Longitude 006:31 East, around 71nm NW of Santo Antonio, Sao Tome and Principe, at approximately 1625 UTC. Seven armed pirates boarded the ship underway. Ship's alarm raised, distress message activated, and crew retreated into the citadel. Two crew remained unaccounted. A Nigerian Naval team responded to the distress call, boarded the ship, and assisted the crew. On inspecting the ship, blood stains were identified near a ladder used by the pirates.

It is suspected a crew was kidnapped. The ship sailed to a safe port for further investigation. Further report awaited.

Singapore Straits:

On 27 February 2025, a Singapore flagged Product Tanker was boarded by armed robbers while underway in the Singapore Straits at position Latitude: 01:07.80 North and Longitude 103:45.62 East, Singapore Straits. While making their escape with stolen ships' engine spares the robbers attacked and seriously injured one crew requiring the vessel to divert into Singapore anchorage where a medical team disembarked the injured crew for shore medical assistance. The coast guard boarded the ship to investigate.
