To the Members

IMB piracy and armed robbery report for January—September 2025

We have received the 2025 January - September piracy and armed robbery report from the International Maritime Bureau Piracy Reporting Centre (IMB PRC) together with the summary below. For more details, please refer to the attached files.

Summary

There has been an increase in reported incidents of maritime piracy and armed robbery in the first nine months of 2025 mainly due to the highest recorded incident numbers, since 1991, in the Singapore Straits.

Vessels were boarded in 91% of the reported incidents broken down as 102 vessels boarded, nine attempted boardings, four vessels hijacked, and one fired upon. Vessels were either at anchor or steaming when boarded, with most incidents occurring during the hours of darkness.

In 33% of the reported incidents guns were visibly carried by the perpetrators - the highest since 2017. Overall, in the first nine months of 2025, in at least 55% of the cases weapons were identified. Violence to crew has thankfully decreased but remains a concern with 72 crew being affected compared to 125 and 95 in the same periods of 2024 and 2023.

The spike in overall numbers is attributed also entirely to increased incidents in the Singapore Straits accounting for 73 of the 116 reported incidents.

The majority of the successful incidents were reported while vessels were steaming.

Status when Attacked	Attempted	Boarded	Fired Upon	Hijacked	Grand Total
Anchored	3	20			23
Berthed		4			4
Steaming	6	78	1	4	89
Grand Total	9	102	1	4	116

Regions where incidents reported.

Region	Attempted	Boarded	Fired Upon	Hijacked	Grand Total
Africa (Somalia)		1	1	3	5
Africa (Gulf of Guinea)	1	13		1	15
Americas	1	3			4
Indian Sub-Cont	1	7			8
East & SE Asia	6	78			84
Grand Total	9	102	1	4	116

Singapore Straits

Seventy-three incidents have been reported in the Singapore Straits in the first nine months of 2025 – the highest reported to the IMB PRC since 1991. There has however been a noticeable reduction in incidents after the Indonesian Marine Police (IMP) arrested two gangs in July 2025. The IMB PRC also commends the actions of the IMP. The IMP requests all ships to report any incident while in these waters to the Authorities and on Ch 16, which is also being monitored by the IMP patrol boats.

Singapore Straits: Total number of reported incidents

Gulf of Guinea

Incidents in the Gulf of Guinea continue to remain at low levels with Regional Authorities commended for their efforts and encouraged to sustain them. Fifteen incidents were reported in this period compared to 12 and 21 in the same period over the past two years. While this trend is worth aspiring to, crew safety and wellbeing are not yet guaranteed. The region accounts for 87% of the number of crew kidnapped globally in 2025. The IMB continues to encourage all seafarers to exercise caution while in these waters and continues to follow the recommended practices in the latest editions of the industry led BMP.

Somalia

There remains a continued threat of potential piratical incidents in these waters requiring all mariners to adhere to the latest guidelines in the industry led BMP, particularly with the SW Monsoon having subsided.

Yours faithfully,

The Japan Ship Owners' Mutual Protection & Indemnity Association

MEDIA RELEASE

London, 14 October 2025

IMB remains cautiously optimistic despite uptick in reported attacks

The ICC International Maritime Bureau (IMB) has revealed a slight increase in reported incidents of maritime piracy and armed robbery in the first nine months of 2025 with the highest recorded number since 1991 in the Singapore Straits. Despite the rise, IMB and its Piracy Reporting Centre (PRC) highlight a continued overall reduction in global incident levels, with no significant attacks recorded.

IMB reported 116 incidents for the period of January-September 2025, up from 79 in the same period last year, the highest reported nine-month figures since 2021.

The report reveals that 102 vessels were boarded, nine faced attempted boardings, four were hijacked and one was fired upon. In 91% of incidents, perpetrators successfully gained access to the vessel with most boarding incidents occurring at night.

The threat of violence against crew remains a concern, with weapons identified in 55% of reported incidents in the first nine months of 2025. Guns were visibly carried in 33% of cases – the highest level since 2017. During this period, 43 crew members were taken hostage, 16 kidnapped, seven threatened, three assaulted and three injured.

IMB Director Michael Howlett said:

“We urge the continued use of collaborative frameworks and commend the efforts undertaken by regional authorities that has contained incident levels and enhanced security of crews and vessels globally.”

Sustained decline in Gulf of Guinea incidents – crew safety remains crucial

In the first nine months of 2025, 15 incidents were reported in the Gulf of Guinea region, compared to 12 in the same period of 2024. Of these, 10 occurred in territorial waters, under the definition of armed robbery and the remaining five under the definition of piracy.

While incident numbers remain curbed, crew safety remains a concern. Fourteen crew were kidnapped in these waters from January to September 2025. Despite zero crew kidnappings in Q3, perpetrators continue to demonstrate the capability to target vessels out at sea. In late August, a product tanker was boarded 46nm from Ghana. Its 13 crew are safe but this and other reports underscores the need to continue adhering to the latest versions of the industry-recognised Best Management Practices.

Authorities intervene in Singapore Straits

A total of 73 incidents were reported in the Singapore Straits between January and September 2025 – the highest number recorded since 1991. Despite this overall rise, there has been a marked reduction in incidents following the arrest of two gangs in July 2025 by the Indonesian Marine Police (IMP).

IMB commends the actions of the authorities and encourages all ships to report any incidents while in these waters.

E icc@iccwbo.org www.iccwbo.org

Caution urged off Somalia and Gulf of Aden

No incidents were reported in the waters off Somalia and the Gulf of Aden in Q3 , likely due to the prevailing southwest monsoon conditions.

IMB advises vessels to continue to adhere to guidelines as 26 crew were taken hostage from two fishing vessels and one dhow in the first six months of 2025.

“This is an important time to reinforce the need for vigilance. There can be no room for complacency and globally, vessel owners and operators are encouraged to follow industry guidelines and report incidents promptly,” said Mr Howlett.

The IMB Piracy Reporting Centre

Founded in 1991, the IMB Piracy Reporting Centre (PRC) serves as a crucial global, 24-hour single point of contact to report crimes of piracy and armed robbery and to provide support to ships under threat. Quick reactions and a focus on coordinating with response agencies, sending out warning broadcasts and email alerts to ships have all helped bolster security on the high seas. The data gathered by the Centre also provides key insights into the nature and state of modern piracy.

IMB encourages all shipmasters and owners to report all piracy and armed robbery incidents to the IMB PRC as a vital first step to ensuring adequate resources are allocated by authorities to tackle maritime piracy.

About the International Chamber of Commerce

The International Chamber of Commerce (ICC) is the institutional representative of more than 45 million companies in over 170 countries. ICC’s core mission is to make business work for everyone, every day, everywhere. Through a unique mix of advocacy, solutions and standard setting, we promote international trade, responsible business conduct and a global approach to regulation, in addition to providing market-leading dispute resolution services. Our members include many of the world’s leading companies, SMEs, business associations and local chambers of commerce.

October 2025

INTRODUCTION

The ICC International Maritime Bureau (IMB) is a specialised division of the International Chamber of Commerce (ICC). The IMB is a non-profit making organisation, established in 1981 to act as a focal point in the fight against all types of maritime crime and malpractice. The International Maritime Organization (IMO), in its resolution A 504 (XII) (5) and (9) adopted on 20 November 1981, has *inter alia* urged governments, interest groups and organizations to co-operate and exchange information with each other and the IMB, with a view of maintaining and developing a coordinated action in combating maritime fraud.

Outrage in the shipping industry at the alarming growth in piracy prompted the creation of the IMB Piracy Reporting Centre (IMB PRC) in Kuala Lumpur, Malaysia in October 1992.

The key advantages and services of the PRC are:

- A 24/7 manned operations centre.
- A single point of reporting for all vessels affected by piracy or armed robbery, as they trade through many different jurisdictions.
- Notifying the appropriate response agency of the reported incident and liaising with these agencies until the crew and vessel are safe.
- Warning vessels in the vicinity of a threat by broadcasting sitreps of incidents via Iridium and Inmarsat-C SafetyNET service.
- Alerting CSOs and vessel managers of incidents via email.
- Keeping the International Maritime Organisation (IMO) updated on reported incidents.
- Assisting local law enforcement in apprehending and bringing the criminals to justice.
- Publishing comprehensive quarterly and annual reports detailing incidents reported to the PRC.

The IMB PRC provides all its services *free of charge* to all ships irrespective of crew nationality, ownership, or flag.

This report is an analysis of 116 global maritime piracy and armed robbery incidents reported to the IMB PRC from 1 January to 30 September 2025. Incidents are occasionally reported late, resulting in changes to the tables and figures in subsequent reports.

Due to the continued debate concerning the Malacca Straits, these narrated incidents are shown separately.

For further details on the anti-piracy service or to report an incident, contact the 24-hour manned IMB PRC at:

DEFINITIONS OF PIRACY & ARMED ROBBERY

The IMB PRC follows the definitions of Piracy as defined in Article 101 of the 1982 United Nations Convention on the Law of the Sea (UNCLOS) and Armed Robbery as defined by the International Maritime Organisation (IMO) in its 26th Assembly session as Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships”.

Article 101 of UNCLOS defines Piracy as:

Definition of Piracy consists of any of the following acts:

(a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed-

(i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;

(ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;

(b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;

(c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

IMO Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships” defines Armed Robbery as:

Armed robbery against ships means any of the following acts:

.1 any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State’s internal waters, archipelagic waters and territorial sea;

.2 any act of inciting or of intentionally facilitating an act described above

The definitions of piracy and armed robbery are aimed to assign responsibility for responding to these illegal acts. It is worth noting that these definitions do not consider the resulting consequence on the crew, vessel and cargo, which in IMB’s experience ranges from opportunistic theft, cargo theft, taking crew hostage, assault and injury, kidnapping and in some cases, death of a crew member.

It is vital that all actual and attempted incidents at the time of, or shortly after the incident, are reported and recorded.

This is the first essential step in the response chain.

Under the definitions of Piracy or Armed Robbery, the IMB PRC reports incidents as follows:

1. **Boarded:** An illegal act of perpetrators successfully gaining access onto the vessel.
2. **Hijacked:** An illegal act of perpetrators successfully gaining access onto the vessel and taking over the control of the vessel from the Master and crew.
3. **Fired Upon:** An illegal act of perpetrators discharging weapons towards the vessel while attempting to gain access onto the vessel.
4. **Attempted:** An illegal act of perpetrators attempting to approach a vessel with possible intention to board but remain unsuccessful due to the timely actions of the crew.

The consequences to the crew, vessel, or cargo, as a result of the above illegal acts:

1. **Crew:** Kidnap, hostage, death, threat, assault, injury, missing.
2. **Vessel:** Damage, especially due to the discharge of weapons or when perpetrators willfully damage vessel equipment and property.
3. **Cargo:** Theft or damage to cargo.

Region specific severity of incident on Crew, Vessel and Cargo: (Chart G)

As several agencies define and categorize incidents differently, the IMB reports under three generic Severity Levels – I, II, and III determined by the effect the incident has on the crew, vessel and cargo.

Severity Level I: Any incident which has a direct impact on the crew. To include:

- a. Crew being taken hostage, assaulted, injured, killed, kidnapped, missing, threatened.
- b. A hijacking where the command of the vessel is taken over by those boarding.
- c. An incident where the crew retreats into the citadel.

Severity Level II: To include a vessel being fired upon, security teams firing on approaching threat, robbers / pirates identified with weapons of any type (violence is offered) whether boarded or otherwise.

Severity Level III: To include an incident that does not fall into either Level I or Level II

FUNDING

The Piracy Reporting Centre (PRC), funded purely on donations, wishes to thank the following organisations that have financially contributed towards the Centre's 24-hour manned service:

- ANIA
- Assuranceforeningen Skuld
- Britannia Steam Ship Insurance Association Limited
- Gard AS
- Japan P&I
- Justships Ltd
- Steamship Insurance Management Services Limited
- Northstandard Limited
- Tsakos Shipping and Trading SA

The PRC is additionally non-financially supported by:

- Spire Global Inc. (<https://spire.com/>)
- Vesseltracker (<https://www.vesseltracker.com/>)
- Kpler (<https://www.kpler.com>)
- MarineTraffic (<https://www.marinetraffic.com>)

CHART J: Managing countries whose vessels involved in nine or more incidents between January – September 2025

OFF SOMALIA / GULF OF ADEN / RED SEA UPDATE

From 1 January to 30 September 2025, three vessels were hijacked in the waters off Somalia.

The international navies patrolling these waters continue to coordinate and liaise with merchant and fishing fleets to identify and apprehend pirate action groups.

The IMB PRC cautions vessel owners and masters against complacency. Recent incidents demonstrate the continued capability and capacity of the Somali pirates to target vessels in and off Somalia. Past incidents recorded over 1000nm from the Somali coast.

All vessels are advised and encouraged to adhere to the latest BMP recommendations while transiting these waters. Vessels employing Privately Contracted Armed Security Personnel (PCASP) should be cautious and not mistake fishermen for pirates.

The IMB PRC continues to monitor the situation in the region. Although three Somali piracy incidents have been recorded, several hijackings of dhows and fishing may have gone unreported.

The IMB PRC supports and compliments the role of international navies by relaying all reports received to the response agencies, as well as by broadcasting alerts to vessels via the GMDSS Safety Net Service on incidents of piracy and armed robbery.

The IMB PRC is also aware of the non-piracy related targeting of vessels in the Gulf of Aden / Red Sea / Bab El Mandeb waters particularly off Yemen using drones and missiles. All vessels are urged to register and report as per the latest edition of the BMP.

CONTINUED COOPERATION

The positive information sharing, actions, and cooperation between the Indonesian Marine Police (IMP) and the IMB PRC has resulted in an overall decrease in the number of reported incidents in the 10 safe designated areas.

All vessels intending to anchor, waiting for berth or drift should do so at the designated areas where IMP patrol boats would be stationed to enable them to maximise their resources to provide greater protection for vessels.

Vessels are advised to cooperate by maintaining strict anti-piracy and robbery watches and report all incidents and suspicious sightings to the local Authorities / IMP, as well as the IMB PRC. The IMB PRC will also liaise with local and regional Authorities to render necessary assistance.

In line with the Road Map Program Police Reforms Wave III, the Indonesian Authorities will continue to allocate and position resources and assets in 10 key designated areas of concern, to prevent sea robbery and piracy in and around Indonesian waters.

The IMB thanks the IMP for their support and contribution to the safety of the shipping industry.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong and vital cooperation from the Philippine and Malaysian Intel that have provided crucial information relating to the safety of vessels and seafarers, particularly in the Sulu Sea/eastern Sabah waters. The successful cooperation has directly and indirectly saved many lives and properties at sea. The IMB PRC looks forward to the continued cooperation, and thanks the intel agencies for their commitment.

ACKNOWLEDGEMENT

The IMB appreciates the assistance (past and present) and vital cooperation provided by the Coalition naval forces / EU naval force (EUNAVFOR ATALANTA) / MSCIO / US Navy / French Alindien / NATO / UKMTO / Indian Navy / Iranian Navy / Malaysian Navy / Russian Navy / Chinese Navy / South Korean Navy / Japanese Maritime SDF/ Singapore Navy / Royal Thai Navy / and Yemeni Coast Guard and Navy, for assisting the many vessels that have been targeted by suspected Somali pirates, both in the Gulf of Aden, and off eastern / southern Somali coast, Indian Ocean, Arabian Sea and other areas. The positive actions by the navies, including pre-emptive and disruptive counter piracy tactics, resulted in a drop in the number of reported incidents.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong cooperation from the West African authorities / navies and international navies (past and present), especially the Danish, Italian, Russian, Spanish and Portuguese Navies in the Gulf of Guinea. A special thanks to the Nigerian Authorities, particularly the Nigerian Navy and NIMASA, who have continued to provide prompt information, actions, and valuable cooperation between agencies. The IMB PRC looks forward to the continued cooperation from the West African authorities / navies and international navies in the area.

ACKNOWLEDGEMENT

The IMB PRC thanks all the masters and vessel owners / operators who have reported incidents to the Centre. It encourages all incidents to be reported in a timely manner.

While the IMB PRC endeavours to always get a meaningful response from regional authorities, the reports also play a crucial role to increase awareness of this crime. This allows for additional resources to be allocated by authorities to tackle the crime of piracy and armed robbery.

Transparent statistics from an independent, non-political, international organization such as the IMB PRC can act as a catalyst to achieve this goal.

PIRACY AND ARMED ROBBERY PRONE AREAS AND WARNINGS

All vessels are advised to report all piracy and armed robbery incidents and suspicious sightings to local Authorities, their flag state and to the IMB Piracy Reporting Centre as per IMO Cir 1334.

The IMB Piracy Reporting Centre can be contacted at:

24 Hours Anti-Piracy HELPLINE is: +60 3 2031 0014

E-mail: piracy@icc-ccs.org / imbkl@icc-ccs.org

Tel: +60 3 2078 5763

WhatsApp / Telegram: +60 11 2659 3057. (Photograph or video submission encouraged).

Mariners are advised to be cautious, take precautionary measures and follow all recommended guidelines, when transiting the following areas:

SOUTH EAST ASIA AND INDIAN SUB CONTINENT

Bangladesh: Most incidents are reported at anchorages and their approaches. The number of incidents in Bangladesh has decreased significantly in recent years due to the efforts of the authorities. Past and recent incidents reported at Chattogram/Chittagong anchorage. Maintain a strict watch. The IMB PRC is monitoring the situation.

Indonesia: Tanjung Priok / Jakarta / Belawan and surrounding waters. Pirates / robbers are normally armed with guns / knives and / or machetes. Generally, be vigilant in other areas in Indonesian waters. Many incidents may have gone unreported. Pirates / robbers normally approach vessels during the night. When spotted and alarm is sounded, the pirates / robbers usually escape without confronting the crew. A strict anti-piracy watch during the night is recommended.

Meetings and continued dialogue between the Indonesian Marine Police (IMP) and the IMB PRC resulted in positive actions by the Indonesian authorities, who have so far brought down the number of incidents significantly. With the assistance and actions of the IMP, the incidents appear to be curtailed.

The Indonesian Marine Police have advised all ships intending to anchor to do so at / near the following areas where Indonesian Marine Police will conduct patrols for greater protection:

(After IMP-IMB started the cooperation, since 2014, no incident has been reported in the Adang Bay region. With this in view, in March 2021, IMP has decided to replace Adang Bay with Tanjung Butan at 01:11.30N – 104:12.30E as Singapore Straits and surrounding waters are now considered as risky waters).

1. Belawan: 03:55.00N-098:45.30E
2. Dumai: 01:42.00N-101:28.00E
3. Nipah: 01:07.30N-103:37.00E
4. Tanjung Berakit/Bintan: 01:23.30N-104:42.30E
5. Tanjung Priok: 06:00.30S-106:54.00E
6. Gresik: 07:09.00S-112:40.00E
7. Taboneo: 03:41.30S-114:28.00E
8. Tanjung Butan: 01:11.30N-104:12.30E (effective 12 March 2021)
9. Muara Berau: 00:17.00S-117:36.00E
10. Balikpapan: 01:22.00S-116:53.00E

The Indonesian authorities have advised IMB that in accordance with the Road Map Program Police Reforms Wave III, the above given ten locations prevention action of sea robbery / piracy in Indonesian waters will continue until further notice.

Vessels are advised to maintain strict anti-piracy watch and measures and report all incidents and suspicious sightings to the local authorities and to the IMB Piracy Reporting Centre. The IMB PRC will also liaise with the local authorities to render necessary assistance.

Malacca Straits: Although the number of incidents has dropped substantially due to increased and aggressive patrols by the littoral states' authorities since July 2005, vessels are advised to continue maintaining strict anti-piracy / robbery watches at night when transiting the Straits. Currently, there are no indications as to how long these patrols will continue or when they will be reduced. In some cases, incidents may have gone unreported. Situation currently remains stable as only one incident was reported in 2024 and one in 2025.

Malaysia: Past incidents reported at/off Bandar Penawar and off Tanjung Piai, Johor. Though incidents have stopped, the IMB PRC is monitoring the situation and will liaise with the Malaysian Authorities / MMEA as needed.

In / off Eastern Sabah – kidnapping of merchant ship's crew by ASG has stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Philippines: In / off Sibutu passage / off Sibutu island / Tawi Tawi / Sulu Sea / Celebes Sea / off eastern Sabah – past incidents included crew kidnappings. These kidnapping incidents have stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Manila: Be vigilant. Several past incidents / robberies have been reported.

Singapore Straits: A General Warning first issued in December 2019 indicating a sudden rise in incidents in Singapore Straits especially, during the night is still valid. The incidents are still occurring to date. It appears that one or more groups are targeting passing ships, including tugs / barges to rob them. Authorities have been notified and are aware of the situation. Vessels are advised to remain vigilant and to continue maintaining adequate watches and measures. Robbers board vessels while underway or while at anchor especially during the night. Robbers will abort and move away when the alarm is sounded, and the authorities notified. Therefore, a strict watch is necessary. Waters now considered highly risky as January to September 2025 incidents increased more than 3-fold compared to same period in 2024. In view of this sudden surge, the IMB – Indonesian Marine Police (IMP) commenced constructive and official meetings with senior personnel in IMP including with their patrol boat stationed in the Singapore Straits in mid-June 2025 until August 2025 to find ways to stop the menace. During this period, two gangs were detained, and several stolen items were recovered by the IMP. The IMB is monitoring the situation.

South China Sea: Although incidents have stopped in the vicinity off Tioman / off Pulau Aur / off Anambas / Natuna / Mangkai islands / Subi Besar / Merundung areas, vessels are advised to continue

to remain vigilant, especially during the night. In the past, several hijackings of small product tankers occurred off the coast of Malaysia, Indonesia, Singapore and in the South China Sea area. This trend started in April 2014, but the hijackings stopped abruptly in late 2015. It has been reported that some criminals have been arrested by local authorities both in Malaysia and in Indonesia. There were three incidents reported in 2017 where two tankers were hijacked off Kuantan / Off Pulau Aur / East coast Malaysia. The IMB continues to monitor the situation in these waters.

WEST AFRICA (Gulf of Guinea) – As a general rule:

- (i) Follow recommendations and guidelines presented in the BMP WA.
- (ii) All crews to keep a vigilant lookout using all available means. Ships advised to adjust ETA for direct berthing or wait / drift / transit more than 300nm from the coast, if appropriate and agreed by all in venture. Past incidents reported up to 300nm from the coast.

Angola (Luanda): Incidents of robberies reported. Be vigilant and maintain watch.

Benin (Cotonou): In 2024, a fishing vessel captain was kidnapped at Cotonou anchorage. Previous incidents in the area involved crew kidnappings by well-armed and violent pirates / robbers. These pirates / robbers have robbed vessels and abducted crews for ransom. Tankers were also hijacked in the past, with part of their cargo, such as gas oil, stolen. While these incidents have ceased since 2022, vessels are still advised to remain vigilant and implement strict security measures.

Cameroon (Douala): Incidents dropped / none reported. However, stay alert due to past incidents such as vessels being fired upon while at anchor and crew members being kidnapped.

Equatorial Guinea: In 2024, there were two incidents off Bioko Island. One occurred approximately 28nm from the island, and the other around 45nm, resulting in the kidnapping of ship crew members. Additionally, two more incidents were reported about 80nm west of Bata, with one involving gunfire and the other a boarding. In 2025, one incident reported 40nm off Bata where an incident was reported but the crew managed to escape by retreating into the citadel.

Gabon (Port Gentil / Owendo anchorage): In 2024, one incident was reported at the anchorage. Previous crew kidnappings occurred over 70nm offshore.

Ghana (Takoradi): Two incidents occurred in 2024 and three in 2025 at Takoradi anchorages, one at Accra and one at Off Anloga. Previous incidents have been reported in the area. Maintain strict watches.

Guinea (Conakry): One robbery incident reported in 2024, with previous incidents of robberies reported at anchorages.

Ivory Coast (Abidjan): Incidents reported at anchorage. Maintain watch.

Nigeria (Lagos / Apapa, Off Bayelsa / Brass / Bonny Island / Port Harcourt): Pirates / robbers in Nigerian waters are armed and violent and have been reported to kidnap crew. Incidents have occurred up to 300nm from shore. All waters off Nigeria are considered high-risk. Vessels should remain vigilant as some incidents may go unreported. Tankers have been hijacked in the past, with cargo theft, particularly of gas oil. Extra precautions are recommended for vessels operating in these dangerous waters.

Incidents in Nigeria have decreased significantly, but vessels are advised to remain vigilant while in these waters.

Togo (Lome): Incidents of robbery and kidnapping of crews in Togo have ceased since 2021. However, vessels are still advised to remain vigilant and implement strict security measures. In the past incidents have been reported at Togo anchorage, where tankers were hijacked and part of their cargo stolen.

The Congo: Past incidents were reported off Pointe Noire. In 2025, one incident reported at Pointe Noire anchorage.

Sao Tome & Principe: Incidents involved vessel hijackings, and crew kidnappings. Two recent incidents in 2025 occurred where a ship was hijacked/boarded, and crew kidnapped. Vessels are advised to maintain strict anti-piracy watch and measures. Waters remain risky for fishing and merchant vessels.

Sierra Leone: (off Turtle Islands). There was one reported hijacking incident in the past.

EAST AFRICA / GOA / RED SEA

Red Sea / Gulf of Aden / Somalia / Arabian Sea / Indian Ocean: In 2024, eight piracy incidents and hijackings reported off Somalia / Gulf of Aden. On 14 December 2023 the first successful hijacking of a merchant vessel by Somali pirates since 2017 was reported. Somali pirates have the capability to target vessels over 1000nm from coast using mother vessels. In 2025, two fishing vessels and a dhow were hijacked.

The recent successful incidents demonstrate the continued capabilities of these criminals. Vessels are advised to be vigilant, maintain strict anti-piracy watch and adhere to the recommendations in the latest BMP, while transiting in these waters. The IMB PRC will continue to alert and broadcast information to all ships in the region via GMDSS Safety Net Service.

In the past, Somali pirates have conducted their acts in waters off the southern Red Sea / Bab El Mandeb, Gulf of Aden including Yemen and the northern Somali coast, Arabian sea / off Oman, Gulf of Oman and off the eastern and southern Somali coast. Vessels have also been targeted off Kenya, Tanzania, Seychelles, Madagascar, Mozambique, as well as in the Indian ocean and off the west and south coasts of India and west Maldives.

Generally, Somali pirates tend to be well armed with automatic weapons and RPGs. They sometimes use skiffs launched from mother vessels, which may be hijacked fishing vessels or dhows. Masters and ship owners are encouraged to register their vessel and report as per the latest BMP procedures, ensure their vessel is hardened prior to entering these waters and to maintain a 24-hour visual and radar watch. Keeping in mind the warnings and alerts for the area, an early sighting / detection of an approaching skiff will enable an accurate assessment, allowing the Master and PCASP to make informed decisions to keep clear of small boats, dhows, fishing vessels and, if necessary, take evasive actions and request assistance as needed.

Masters are reminded that fishermen in this region may try to protect their nets by attempting to aggressively approach merchant vessels. Some of the fishermen may be armed to protect their catch and they should not be confused with pirates.

Vessels transiting in / off Yemen / Gulf of Aden / Southern Red Sea / Bab El Mandeb: There is a heightened security risk to vessels transiting these waters. Vessels are being approached by skiffs and hailed via VHF, allegedly by Yemeni naval forces, to alter course into Yemeni waters. Masters are encouraged to be cautious, ignore these calls and immediately report any such activities to Coalition warships on VHF Ch 16.

Not piracy related: Ships transiting Gulf of Aden, Southern Red Sea and Bab El Mandeb are also advised to be vigilant and take precautionary measures as in the recent past, vessels have been targeted by missiles and unmanned aerial/seaborne vehicles. Although recently no incidents were reported, the conditions and situation may change very quickly due to current political situation. With the recent escalating tensions between Israel, Iran and the US, the Houthis in Yemen had issued threats to resume

targeting ships in the Red Sea/Gulf of Aden. Currently, ships experienced high levels of electronic interference particularly affecting GNSS systems.

Vessels transiting Straits of Hormuz / Gulf of Oman / Off Iran – incidents are not piracy related. Unauthorised boardings have been reported. Currently, ships experienced high levels of electronic interference particularly affecting GNSS systems.

SOUTH AND CENTRAL AMERICA AND CARIBBEAN WATERS

Brazil (Macapa): Incidents have dropped and recently appears stopped. However, ships are advised to continue to stay vigilant.

Colombia (Cartagena): Past incidents reported at anchorages, river passage and pilot boarding ground. Stay vigilant.

Ecuador (Guayaquil): Incidents have stopped. Past incidents reported at anchorage / river passage with pilot. Robbers well-armed. Fired upon.

Haiti (Port Au Prince / Lafiteau): Incidents dropped but one incident – abduction of crew reported in 2025. Advised to continue maintaining watch and to stay vigilant.

Mexico (Puerto Dos Bocas): Incidents dropped. Past reported incidents - pirates / robbers in this area armed with guns.

Peru (Callao): Despite no reported incidents, waters remain risky. Maintain vigilant watch and employ anti-piracy measures.

Venezuela (Puerto La Cruz / Puerto Jose / Guanta): Although incidents have stopped, vessels are still reminded to maintain strict anti-piracy watch and measures especially at anchor.

EASTERN EUROPE/UKRAINE

Not piracy related: Ukraine and Russia conflict: stay clear of Ukrainian coast. In the past, mines reported in the Black Sea.

IMB Maritime Security Hotline

The International Maritime Bureau (IMB) has a dedicated hotline for seafarers, port workers, shipping agents, shipyard personnel, brokers, stevedores and all concerned parties to report any information that they may have seen / heard / known etc. relating to any maritime crime including terrorism, piracy and other illegal activities. All information reported will be treated in strict confidence and will be passed on to relevant authorities for further action. Maritime crime and security concerns us all and with your help, we can try to minimize the risks and help save lives and property.

The Maritime Security Hotline can be contacted 24 hours every day at: Tel: +60 3 2031 0014

E-mail: imbsecurity@icc-ccs.org

WhatsApp or Telegram at +601126593057. Photograph or video submission encouraged.

REMEMBER: Your information may save lives. All information will be treated in strict confidence.

Trends within areas of continued concern

CHART K: SE Asia – Singapore Straits – Total number of reported incidents

CHART L: West Africa – Gulf of Guinea – Total number of reported incidents

CHART M: East Africa – Waters off Somalia / Gulf of Aden – Total number of reported incidents

TRENDS

A total of 116 incidents of piracy and armed robbery against ships were reported to the IMB Piracy Reporting Centre (PRC) in the first nine months of 2025 compared to 79 and 99 incidents in the same period over the past two years respectively. These are the highest reported figures to the IMB PRC since 2021.

Perpetrators successfully gained access to vessels in 91% of overall incidents, broken down as 102 vessels boarded, nine attempted boardings, four vessels hijacked, and one fired upon. Vessels were either at anchor or steaming when boarded, with most incidents occurring during the hours of darkness.

In 33% of the reported incidents guns were visibly carried by the perpetrators - the highest since 2017. Overall, in the first nine months of 2025, in at least 55% of the cases weapons were identified. Violence to crew continues with 72 crew being affected compared to 125 and 95 in the same periods of 2024 and 2023.

The threat to crew, however petty or opportunistic the incident, remains real.

In the first nine months of 2025, 15 incidents have been reported in the Gulf of Guinea (GoG) region, compared to 12 and 21 in the same period of 2024 and 2023 respectively. Of the 15 reported incidents, 10 were inside the territorial waters, under the definition of Armed Robbery, and the remaining five under the definition of Piracy. In the first nine months of 2025, 14 crew have been kidnapped in these waters. The perpetrators continue to possess the capability and capacity to target vessels out at sea, thus requiring crew to continue adhering to the latest versions of the industry recognised Best Management Practices. For example, in late August, a Malta-flagged product tanker was boarded by armed pirates about 46 nm SE of Anloga, Ghana. The crew secured themselves in the citadel until the Togo Navy intervened, ensuring their safety; no injuries or damage were reported. The IMB commends the efforts of the Regional Co-operations and Coastal Authorities and encourages these efforts to be sustained to safeguard seafarers and regional and international shipping and trade.

Seventy-three incidents have been reported in the Singapore Straits in the first nine months of 2025 – the highest reported to the IMB PRC since 1991. There has however been a noticeable reduction in incidents after the Indonesian Marine Police (IMP) arrested two gangs in July 2025. The IMB PRC also commends the actions of the IMP. The IMP requests all ships to report any incident while in these waters to the Authorities and on Ch 16, which is also being monitored by the IMP patrol boats.

No incidents have been reported in the waters off Somalia and the Gulf of Aden in Q3 of 2025. This may be due to the prevalence of the SW monsoons. Vessels are, however, advised to continue adherence to the guidelines in the latest edition of the Best Management Practices as 26 crew have been taken hostage from two fishing vessels and one dhow in the first six months of 2025.

Since 1991 the IMB Piracy Reporting Centre's 24-hour manned center remains a single point of contact to report the crimes of piracy and armed robbery. The Centre has not only assisted ships in a timely manner, it provides the maritime industry, response agencies and governments with transparent data – received directly from the Master of the vessel reporting the incident - or its owners.

The IMB PRC's prompt forwarding of reports and liaison with response agencies, its broadcasts to shipping via GMDSS Safety Net Services and email alerts to CSOs, all provided free of cost, has helped the response against piracy and armed robbery and the security of seafarers globally.

OBSERVATIONS

Narrations of the 116 incidents for 01 January to 30 September 2025 are listed on pages 29 to 48. The following serious incidents, in chronological sequence are described in more detail.

Ghana:

On 27 March 2025, a Ghanaian flagged Fishing Vessel was boarded by five armed pirates at position Latitude: 05:24.66 North and Longitude 000:01.98 West, around 12nm SE of Accra, Ghana, at around 1932 UTC. After boarding the pirates fired three warning shots and ordered the crew to lie on the deck. They then stole crew mobile phones and properties and locked them in a cabin. Before escaping, the pirates damaged communication equipment and kidnapped three crew. On emerging from the cabin, the crew sailed to Tema.

On 28 August 2025, a Malta flagged Product Tanker was boarded by armed pirates while underway at position Latitude: 05:10.21 North and Longitude 001:22.92 East, around 46 nm SE of Anloga, Ghana, at around 1925 UTC. The duty crew onboard the tanker spotted a skiff with around 10 pirates approaching and alerted the Master. The crew mustered in the citadel and the Master contacted the Owners and Togo Navy for assistance. A Togo Navy patrol boat responded and boarded the tanker. Minor damage due to firing of weapons was identified, however all crew reported safe. The tanker proceeded to Lome port anchorage for further investigation by Togo Authorities.

Haiti:

On 02 April 2025, a Panamanian flagged Bulk Carrier, MV Century Royal was boarded by armed individuals while drifting at position Latitude: 18:34.68 North and Longitude 072:27.16 West, around 6nm West of Port Au Prince, Haiti, at around 0300 UTC. Armed individuals boarded the ship and assaulted a crew member with a gun. The other crew retreated into their cabins and the engine room. The assailants then abducted two crew members and escaped. The incident was reported to the Haitian Coast Guard.

Sao Tome and Principe:

On 17 March 2025, a Panamanian flagged Bitumen Tanker was boarded and hijacked by 10 armed pirates while underway at position Latitude 01:17.8 North and Longitude 008:01.1 East, around 37nm SE of Santo Antonio, Sao Tome and Principe, at approximately 1845 UTC. The crew retreated into the citadel, which the pirates were able to breach. Before escaping the pirates damaged the ship's equipment, stole crew and ship properties, cash and kidnapped 10 crew members. The remaining eight crew members sailed the tanker to a safe port. The incident was reported to the Authorities.

On 30 May 2025, a Curacao flagged Refrigerated Cargo Ship was boarded by seven armed pirates while underway at position Latitude 02:30 North and Longitude 006:31 East, around 71nm NW of Santo Antonio, Sao Tome and Principe, at approximately 1625 UTC. Seven armed pirates boarded the ship underway. Ship's alarm raised, distress message activated, and crew retreated into the citadel. Two crew remained unaccounted. A Nigerian Naval team responded to the distress call, boarded the ship, and assisted the crew. On inspecting the ship, blood stains were identified near a ladder used by the pirates. It is suspected a crew was kidnapped. The ship sailed to a safe port for further investigation. Further report awaited.

Singapore Straits:

On 27 February 2025, a Singapore flagged Product Tanker was boarded by armed robbers while underway in the Singapore Straits at position Latitude: 01:07.80 North and Longitude 103:45.62 East, Singapore Straits. While making their escape with stolen ships' engine spares, the robbers attacked and seriously injured one crew, requiring the vessel to divert into Singapore anchorage where a medical team disembarked the injured crew for shore medical assistance. The coast guard boarded the ship to investigate.

Somalia:

On 07 February 2025, a Yemeni flagged Dhow, Al Najma No. 481 was boarded and hijacked by six armed perpetrators while underway at position Latitude 07:54 North and Longitude 049:56 East, around 6nm SE of Eyl, Somalia during night hours. The crew and one security guard were taken hostage. The guard was later released. Reports indicated that the perpetrators left the dhow on or before 13 February 2025 after stealing the crew personal effects and small boats belonging to the dhow. All crew reported safe.

On 17 February 2025, a Yemeni flagged Fishing Vessel, Saytuun 2 was boarded and hijacked by six armed perpetrators while underway off Garmaal, North of Eyl, Somalia, at approximately 0001 UTC. The perpetrators took hostage the captain and four crew members and released the remaining crew. On 23 February 2025, a Spanish naval warship identified, intercepted and boarded the hijacked Fishing Vessel. The crew indicated that the perpetrators had left the vessel. All crew safe.

On 16 March 2025, a Yemeni flagged Fishing Vessel, Al-Hidaya 1 was boarded and hijacked by armed hijackers while underway off Durdura, Somalia, at approximately 1000 UTC. The perpetrators took eight crew members hostage. On 20 March 2025, the hijackers abandoned the Fishing Vessel. EUNAVFOR Atlanta conducted a friendly approach on 21 March 2025 to investigate. The eight crew members are reported safe.

1 January – 30 September 2025**ACTUAL INCIDENTS****SOUTHEAST ASIA (MALACCA STRAITS)**

Ref	Date Time	Name of Ship Type/Flag/Grt/ IMO Number	Position	Narration
1.	15.06.2025 1818 UTC Steaming Boarded	Sinar Sigli Container Liberia 19944 9970430	01:12.14N – 103:23.14E, Malacca Straits	Duty crew onboard the ship under way noticed the locking device of the deck store was broken. Alarm raised, crew mustered, and a search was carried out. Ship's properties reported stolen. The incident was reported to the Singapore Authorities.

SOUTHEAST ASIA (EXCLUDING MALACCA STRAITS)

Ref	Date Time	Name of Ship Type/Flag/Grt/ IMO Number	Position	Narration
1.	07.01.2025 1930 UTC Steaming Boarded	Name Withheld Tanker Saudi Arabia 156336 -	01:07.1N – 103:43.1E, Singapore Straits	Engine room crew noticed footprints and auxiliary engine spare parts missing during routine rounds onboard the tanker underway.
2.	07.01.2025 2000 UTC Steaming Boarded	Anabela Bulk Carrier Liberia 92053 9587350	01:05.1N – 103:35.0E, Singapore Straits	Four robbers, armed with a gun, boarded the ship underway and entered the engine room. Alarm raised and crew mustered. Hearing the alarm and seeing the crew's alertness, the robbers escaped with stolen ship's stores. Incident reported to VTI and Singapore Coast Guard boarded the ship for inspection.
3.	08.01.2025 2145 UTC Steaming Boarded	Trinity Island Bulk Carrier Hong Kong 43655 9971903	01:08.6N – 103:46.2E, Singapore Straits	Six robbers armed with guns and long knives boarded the ship underway. Duty oiler was taken hostage, tied up and guarded by one robber while the others stole engine spares. Before escaping, the robbers released the oiler, who then informed the Master. General alarm raised, PA announcement made, and crew mustered. Incident reported to VTIS.
4.	17.01.2025 1036 UTC Anchored Boarded	Golden Curl Chemical Tanker Singapore 11254 9348522	03:55N – 098:44E, Belawan Anchorage, Indonesia	Crew onboard an anchored tanker noticed two unauthorised persons near the deck store. Master was informed, general alarm raised, PA announcement made, and crew mustered. Seeing the crew's alertness, the persons escaped with ship's stores. Incident reported to Belawan VTS, who then dispatched a patrol boat to the tanker.

5.	18.01.2025 2100 UTC Steaming Boarded	Golden Calvus Bulk Carrier Marshall Islands 94185 9743174	01:10.4N – 103:48.7E, Singapore Straits	Six robbers armed with a gun and knives boarded the ship underway. Alarm raised, crew mustered and VTIS Singapore informed. On anchoring, the Singapore police boarded the ship to investigate. Nothing reported stolen.
6.	21.01.2025 1830 UTC Steaming Boarded	Delfin Bulk Carrier Portugal 44425 9749867	01:03.9N – 103:36.1E, Singapore Straits	Six robbers armed with a gun and long knives boarded the ship underway. They entered the engine room and took the 2/E and a wiper hostage and tied them up in the engine room workshop. One of the robbers stood guard over the crew while the others stole spare parts prior to escaping. The 2/E managed to free himself and informed the Master, who then contacted the VTIS. The C/E, Bosun and an AB were tasked with searching the ship, but no robbers were found. The ship was escorted to the anchorage area by a warship and two coast guard vessels, where the coast guard conducted an inspection.
7.	23.01.2025 1854 UTC Anchored Boarded	Chinook Bulk Carrier Panama 51265 9476537	01:21.9S – 116:58.7E, Balikpapan Anchorage, Indonesia	Six robbers armed with hammers boarded an anchored ship. Duty crew on routine rounds spotted the robbers and informed the bridge. Alarm raised and crew mustered. Seeing the crew's alertness, the robbers escaped empty-handed. The incident was reported to Balikpapan VTS, who then dispatched a patrol boat to the ship.
8.	25.01.2025 1735 UTC Steaming Boarded	Shi Dai 9 Bulk Carrier China 40913 9591703	01:03.2N – 103:39.7E, Singapore Straits	Duty crew onboard the ship underway noticed five individuals, on the poop deck, armed with knives. Alarm raised, crew mustered, PA announcement made and VTIS notified. Seeing the crew alertness, the individuals fled empty handed, in their boat.
9.	25.01.2025 1825 UTC Steaming Boarded	Asian Enterprise Bulk Carrier St. Kitts and Nevis 25676 9074822	01:03.8N – 103:41.3E, Singapore Straits	Two robbers armed with guns boarded the ship and entered the engine room. Duty crew spotted the robbers and alerted the bridge. Alarm raised, SSAS activated, PA announcement made and VTS notified. Crew managed to secure themselves in the ECR, Bridge and cabins.
