外航組合員各位

国際海事局（IMB）海賊と武装強盗に関する 2026 年上半期報告書

国際海事局海賊情報センター（IMB PRC : The IMB Piracy Reporting Centre）から 2026 年上半期（2026 年 1 月から 6 月）の海賊と武装強盗に関する報告書を受領しましたので、IMB による要約と共にご案内申し上げます。詳細は添付資料をご参照ください。

要約

2026 年上半期において、計 38 件が報告されました。本船への侵入が 27 件、ハイジャックが 5 件、発砲が 3 件、襲撃未遂が 3 件となっています。船員に対する暴力や脅威は依然として続いており、67 人が人質となり、2 人が脅迫され、1 人が負傷しています。

下表のとおり、事件の多くは船舶が航行中もしくは停泊中に報告されています。

Status when Attacked	Attempted	Boarded	Fired Upon	Hijacked	Grand Total

ソマリア

ソマリア沖ではソマリア海賊による 10 件が報告されています。5 隻のハイジャック（プロダクトタンカー2 隻、ダウ船（木造帆船）2 隻、一般貨物船 1 隻）、3 隻への発砲、および 2 隻の襲撃未遂です。海賊はハイジャックされたダウ船を母船として使用し、沖合で商船を襲撃している可能性があります。IMB は、全ての船長に対して、最新版の BMP（Best Management Practices）ガイドライン（<https://www.maritimeglobalsecurity.org/risksissues/piracy/>）に従い、不審な動向を直ちに通報するよう要請しています。全ての船舶に対し、当該ガイドラインに基づき推奨される BMP の実施を促しております。また、当海域に配備されている多国籍軍に対しては、船員の安全確保および通商確保のため、特定された海賊襲撃グループに対して毅然とした対応を取るよう呼びかけています。

ギニア湾

ギニア湾においては、報告事案の減少傾向が続いており、落ち着きを見せています。4 月にコートジボワールのサン・ペドロ錨地で襲撃未遂事件が 1 件報告されました。IMB は、沿岸国の持続的な努力を評価するとともに、船員の安全確保および通商確保に向けた取り組みを継続するよう呼びかけています。

シンガポール海峡

シンガポール海峡の報告事案は減少傾向にあり、船舶への侵入被害は 4 月に 2 隻、5 月と 6 月にそれぞれ 1 隻でした。それぞれ異なる事案において 2 人の船員が脅迫を受け、1 人の船員が人質として拘束されました。

フィリピン

6 月にマニラの錨地において船舶への侵入被害の増加が報告され、3 隻の船舶が停泊中に銃やナイフで武装した犯行グループに侵入されました。これらの事案により、2026 年上半期の累計報告件数は 8 件となり、2025 年同時期のゼロ件と比較して増加しています。

MEDIA RELEASE

London, 9 July 2026

Maritime piracy incidents fall to lowest since 1992, but risk remains

Maritime piracy and armed robbery incidents fell to their lowest level since 1992 in the first half of 2026, according to the latest report from ICC's International Maritime Bureau (IMB), released today. However, IMB warns there is no room for complacency, with crew safety still at risk and a slight resurgence of Somali piracy underscoring the need for continued vigilance.

Thirty-eight incidents of piracy and armed robbery against ships were recorded in the first half of 2026, a decrease from 90 incidents for the same period in 2025 and 60 in 2024.

From January to June, 27 vessels were boarded, five hijacked, three fired upon and three attempted attacks. Despite the lowest mid-year figures since 1992, danger to crew continues with 67 crew taken hostage, two threatened, and one injured.

The IMB reports that Somali pirates were responsible for 94% of all crew taken hostage, demonstrating their continued capability to board all types of vessels and the escalation of activities in the waters off Somalia.

IMB Director Michael Howlett said:

"The lowest mid-year level of reported piracy and armed robbery incidents since 1992 is encouraging and reflects the impact of sustained efforts by governments, law enforcement agencies and the maritime community. However, there is no room for complacency. Crew safety remains at risk, and the slight uptick of Somali piracy is a reminder that continued vigilance and regional cooperation remain essential to protect seafarers, global shipping and trade."

Slight resurgence of Somali piracy

Despite a decline in global piracy incidents, Somali piracy remains a threat. Four vessels were hijacked in the region between April and May 2026, while additional attacks and approaches were reported in June.

While adherence to Best Management Practices (BMP) has helped prevent further boardings, IMB and ICC are urging international naval forces to maintain a strong and visible deterrent presence in the region to counter any potential escalation.

A welcome reduction in Gulf of Guinea and Singapore Straits

With only two reported incidents in the Gulf of Guinea during the first half of 2026, IMB commends the efforts of littoral states and regional partners to strengthen maritime security. While this progress is encouraging, IMB reiterates the need for continued patrols and regional cooperation to deter criminal activity and safeguard life at sea.

A decline in incidents was reported in the Singapore Straits from January to June with two vessels boarded in April and one each in May and June. Two crew were threatened in separate incidents, while a further two crew were taken hostage for the duration of an incident and one crew injured.

As one of the world's busiest trade routes and a key artery connecting East and West, enhanced engagement and coordinated enforcement measures among littoral states remain essential to further reduce incidents and ensure the safety of seafarers and global commerce.

Sustained vigilance and timely reporting

Reported incidents at Manila Anchorage increased during the first half of 2026, with three vessels boarded by perpetrators armed with guns and knives while at anchor in June alone. The eight incidents reported during the period compare with no incidents during the same period in 2025. IMB urges vigilance among vessels operating in the area.

“We continue to urge masters and ship operators to report all incidents promptly. Timely reporting enables faster responses, helps prevent further incidents and improves the safety of crew and vessels operating nearby,” said Mr Howlett.

About IMB Piracy Reporting Centre

Since its founding in 1991, IMB's Piracy Reporting Centre serves as a crucial, 24-hour point of contact to report crimes of piracy and lend support to ships under threat. Quick reactions and a focus on coordinating with response agencies, sending out warning broadcasts and email alerts to ships have all helped bolster security on the high seas. The data gathered by the Centre also provides key insights on the nature and state of modern piracy.

IMB encourages all shipmasters and owners to report all actual, attempted and suspected global piracy and armed robbery incidents to the Piracy Reporting Centre as a vital first step to ensuring adequate resources are allocated by authorities to tackle maritime piracy.

About the International Chamber of Commerce

The International Chamber of Commerce (ICC) is the institutional representative of more than 45 million companies in over 170 countries. ICC's core mission is to make business work for everyone, every day, everywhere. Through a unique mix of advocacy, solutions and standard setting, we promote international trade, responsible business conduct and a global approach to regulation, in addition to providing market-leading dispute resolution services. Our members include many of the world's leading companies, SMEs, business associations and local chambers of commerce.

INTRODUCTION

The ICC International Maritime Bureau (IMB) is a specialised division of the International Chamber of Commerce (ICC). The IMB is a non-profit making organisation, established in 1981 to act as a focal point in the fight against all types of maritime crime and malpractice. The International Maritime Organization (IMO), in its resolution A 504 (XII) (5) and (9) adopted on 20 November 1981, has *inter alia* urged governments, interest groups and organizations to co-operate and exchange information with each other and the IMB, with a view of maintaining and developing a coordinated action in combating maritime fraud.

Outrage in the shipping industry at the alarming growth in piracy prompted the creation of the IMB Piracy Reporting Centre (IMB PRC) in Kuala Lumpur, Malaysia in October 1992.

The key advantages and services of the PRC are:

- A 24/7 manned operations centre.
- A single point of reporting for all vessels affected by piracy or armed robbery, as they trade through many different jurisdictions.
- Notifying the appropriate response agency of the reported incident and liaising with these agencies until the crew and vessel are safe.
- Warning vessels in the vicinity of a threat by broadcasting sitreps of incidents via Iridium and Inmarsat-C SafetyNET service.
- Alerting CSOs and vessel managers of incidents via email.
- Keeping the International Maritime Organisation (IMO) updated on reported incidents.
- Assisting local law enforcement in apprehending and bringing the criminals to justice.
- Publishing comprehensive quarterly and annual reports detailing incidents reported to the PRC.

The IMB PRC provides all its services ***free of charge*** to all vessels irrespective of crew nationality, ownership, or flag.

This report is an analysis of 38 global maritime piracy and armed robbery incidents reported to the IMB PRC from 1 January to 30 June 2026. Incidents are occasionally reported late, resulting in changes to the tables and figures in subsequent reports.

Due to the continued debate concerning the Malacca Straits, these narrated incidents are shown separately.

DEFINITIONS OF PIRACY & ARMED ROBBERY

The IMB PRC follows the definitions of Piracy as defined in Article 101 of the 1982 United Nations Convention on the Law of the Sea (UNCLOS) and Armed Robbery as defined by the International Maritime Organisation (IMO) in its 26th Assembly session as Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships”.

Article 101 of UNCLOS defines Piracy as:

Definition of Piracy consists of any of the following acts:

(a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed-

(i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;

(ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;

(b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;

(c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

IMO Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships” defines Armed Robbery as:

Armed robbery against ships means any of the following acts:

1 any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State’s internal waters, archipelagic waters and territorial sea;

2 any act of inciting or of intentionally facilitating an act described above

The definitions of piracy and armed robbery are aimed to assign responsibility for responding to these illegal acts. It is worth noting that these definitions do not consider the resulting consequence on the crew, vessel and cargo, which in IMB’s experience ranges from opportunistic theft, cargo theft, taking crew hostage, assault and injury, kidnapping and in some cases, death of a crew member.

It is vital that all actual and attempted incidents at the time of, or shortly after the incident, are reported and recorded.

This is the first essential step in the response chain.

Under the definitions of Piracy or Armed Robbery, the IMB PRC reports incidents as follows:

1. **Boarded:** An illegal act of perpetrators successfully gaining access onto the vessel.
2. **Hijacked:** An illegal act of perpetrators successfully gaining access onto the vessel and taking over control of the vessel from the Master and crew.
3. **Fired Upon:** An illegal act of perpetrators discharging weapons towards the vessel while attempting to gain access onto the vessel.
4. **Attempted:** An illegal act of perpetrators attempting to approach a vessel with possible intention to board but remain unsuccessful due to the timely actions of the crew.

The consequences to the crew, vessel, or cargo, as a result of the above illegal acts:

1. **Crew:** Kidnap, hostage, death, threat, assault, injury, missing.
2. **Vessel:** Damage, especially due to the discharge of weapons or when perpetrators willfully damage vessel equipment and property.
3. **Cargo:** Theft or damage to cargo.

Region specific severity of incident on Crew, Vessel and Cargo: (Chart G)

As several agencies define and categorize incidents differently, the IMB reports under three generic Severity Levels – I, II, and III determined by the effect the incident has on the crew, vessel and cargo.

Severity Level I: Any incident which has a direct impact on the crew. To include:

- a. Crew being taken hostage, assaulted, injured, killed, kidnapped, missing, threatened.
- b. A hijacking where the command of the vessel is taken over by those boarding.
- c. An incident where the crew retreats into the citadel.

Severity Level II: To include a vessel being fired upon, security teams firing on approaching threat, robbers / pirates identified with weapons of any type (violence is offered) whether boarded or otherwise.

Severity Level III: To include an incident that does not fall into either Level I or Level II

OFF SOMALIA / GULF OF ADEN / RED SEA ATTACK FIGURES UPDATE

From 1 January to 30 June 2026, four vessels were hijacked, three fired upon and two reported attempted approaches in the waters off Somalia / Gulf of Aden. One tanker was reported hijacked at Yemen anchorage and then sailed to Somalia.

The international navies patrolling these waters continue to coordinate and liaise with merchant and fishing fleets to identify and apprehend pirate action groups.

The IMB PRC cautions vessel owners and masters against complacency. Recent incidents demonstrate the continued capability and capacity of the Somali pirates to target vessels in and off Somalia. Past incidents recorded over 1000nm from the Somali coast.

All vessels are advised and encouraged to adhere to the latest BMP recommendations (<https://www.maritimeglobalsecurity.org/riskissues/piracy/>) while transiting these waters. Vessels employing Privately Contracted Armed Security Personnel (PCASP) should be cautious and not mistake fishermen for pirates.

The IMB PRC continues to monitor the situation in the region. Some hijackings of dhows and fishing boats may have gone unreported.

The IMB PRC supports and compliments the role of international navies by relaying all reported incidents received to the response agencies, as well as by broadcasting alerts to vessels via the GMDSS Safety Net Service (Inmarsat C and Iridium) on incidents of piracy and armed robbery.

CONTINUED COOPERATION

The positive information sharing, actions, and cooperation between the Indonesian Marine Police (IMP) and the IMB PRC has resulted in an overall decrease in the number of reported incidents in the 10 safe designated areas.

All vessels intending to anchor, waiting for berth or drift should do so at the designated areas where IMP has stationed patrol boats to provide vessels greater protection.

Vessels are advised to cooperate by maintaining strict anti-piracy and robbery watches and report all attacks and suspicious sightings to the local Authorities / IMP, as well as the IMB PRC. The IMB PRC will also liaise with local and regional Authorities to render necessary assistance.

In line with the Road Map Program Police Reforms Wave III, the Indonesian Authorities will continue to allocate resources and assets in the designated areas of concern, to prevent sea robbery and piracy in and around Indonesian waters.

The IMB thanks the IMP for their support and contribution to the safety of the shipping industry.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong and vital cooperation from the Philippine and Malaysian Intel that have provided crucial information relating to the safety of vessels and seafarers, particularly in the Sulu Sea/eastern Sabah waters. The successful cooperation has directly and indirectly saved many lives and properties at sea. The IMB PRC looks forward to the continued cooperation, and thanks the intel agencies for their commitment.

ACKNOWLEDGEMENT

The IMB appreciates the assistance (past and present) and vital cooperation provided by the Coalition naval forces / EU naval force (EUNAVFOR ATALANTA) / MSCIO / US Navy / French Alindien / NATO / UKMTO / Indian Navy / Iranian Navy / Malaysian Navy / Russian Navy / Chinese Navy / South Korean Navy / Japanese Maritime SDF/ Singapore Navy / Royal Thai Navy / and Yemeni Coast Guard and Navy, for assisting the many vessels that have been attacked by suspected Somali pirates, both in the Gulf of Aden, and off eastern / southern Somali coast, Indian Ocean, Arabian Sea and other areas. The positive actions by the navies, including pre-emptive and disruptive counter piracy tactics, resulted in a drop in the number of attacks.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong cooperation from the West African authorities / navies and international navies (past and present), especially the Danish, Italian, Russian, Spanish and Portuguese Navies in the Gulf of Guinea. A special thanks to the Nigerian Authorities, particularly the Nigerian Navy and NIMASA, who have continued to provide prompt information, actions, and valuable cooperation between agencies. The IMB PRC looks forward to the continued cooperation from the West African authorities / navies and international navies in the area.

ACKNOWLEDGEMENT

The IMB PRC thanks all the masters and vessel owners / operators who have reported incidents to the Centre. It encourages all incidents to be reported in a timely manner.

While the IMB PRC endeavours to always get a meaningful response from regional authorities, the reports also play a crucial role to increase awareness of this crime. This allows for additional resources to be allocated by authorities to tackle the crime of piracy and armed robbery.

Transparent statistics from an independent, non-political, international organization such as the IMB PRC can act as a catalyst to achieve this goal.

PIRACY AND ARMED ROBBERY PRONE AREAS AND WARNINGS

All vessels are advised to report all piracy and armed robbery incidents and suspicious sightings to local Authorities, their flag state and to the IMB Piracy Reporting Centre as per IMO Cir 1334.

The IMB Piracy Reporting Centre can be contacted at:

24 Hours Anti-Piracy HELPLINE is: +60 3 2031 0014

Mariners are advised to be cautious, take precautionary measures and follow all recommended guidelines, when transiting the following areas:

SOUTH EAST ASIA AND INDIAN SUB CONTINENT

Bangladesh: Most incidents are reported at anchorages and their approaches. The number of incidents in Bangladesh has decreased significantly in recent years due to the efforts of the authorities. Past and recent incidents reported at Chattogram/Chittagong anchorage. Maintain a strict watch. The IMB PRC is monitoring the situation.

Indonesia: Recently, incidents have decreased significantly due to the efforts of the Indonesian Authorities. However, past incidents showed that pirates / robbers are normally armed with guns / knives and / or machetes. Generally, be vigilant in Indonesian waters. Incidents may have gone unreported. Pirates / robbers normally approach vessels during the night. When spotted and alarm is sounded, the pirates / robbers usually escape without confronting the crew. A strict anti-piracy watch during the night is recommended even though incidents have decreased.

Meetings and continued dialogue between the Indonesian Marine Police (IMP) and the IMB PRC resulted in positive actions by the Indonesian authorities, who have so far brought down the number of incidents significantly. With the assistance and actions of the IMP, the incidents appear to be curtailed.

The Indonesian Marine Police have advised all ships intending to anchor to do so at / near the following areas where Indonesian Marine Police will conduct patrols for greater protection:

(After IMP-IMB started the cooperation, since 2014, no incident has been reported in the Adang Bay region. With this in view, in March 2021, IMP has decided to replace Adang Bay with Tanjung Butan at 01:11.30N – 104:12.30E as Singapore Straits and surrounding waters are now considered as risky waters).

1. Belawan: 03:55.00N-098:45.30E
2. Dumai: 01:42.00N-101:28.00E
3. Nipah: 01:07.30N-103:37.00E
4. Tanjung Berakit/Bintan: 01:23.30N-104:42.30E
5. Tanjung Priok: 06:00.30S-106:54.00E
6. Gresik: 07:09.00S-112:40.00E
7. Taboneo: 03:41.30S-114:28.00E
8. Tanjung Butan: 01:11.30N-104:12.30E (effective 12 March 2021)
9. Muara Berau: 00:17.00S-117:36.00E
10. Balikpapan: 01:22.00S-116:53.00E

The Indonesian authorities have advised IMB that in accordance with the Road Map Program Police Reforms Wave III, the above given ten locations' prevention action of sea robbery / piracy in Indonesian waters will continue until further notice.

Vessels are advised to maintain strict anti-piracy watch and measures and report all incidents and suspicious sightings to the local authorities and to the IMB Piracy Reporting Centre. The IMB PRC will also liaise with the local authorities to render necessary assistance.

Malacca Straits: Although the number of incidents has dropped substantially due to increased and aggressive patrols by the littoral states' authorities since July 2005, vessels are advised to continue maintaining strict anti-piracy / robbery watches at night when transiting the Straits. Currently, there are no indications as to how long these patrols will continue or when they will be reduced. In some cases, incidents may have gone unreported. Situation currently remains stable as only one incident was reported in 2025 and none in Q2 2026.

Malaysia: Past incidents reported at/off Bandar Penawar and off Tanjung Piai, Johor. Though incidents have stopped, the IMB PRC is monitoring the situation and will liaise with the Malaysian Authorities / MMEA as needed.

In / off Eastern Sabah – kidnapping of merchant ship's crew by ASG has stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Philippines: In / off Sibutu passage / off Sibutu island / Tawi Tawi / Sulu Sea / Celebes Sea / off eastern Sabah – past incidents included crew kidnappings. These kidnapping incidents have stopped for several years due to the actions by the Malaysian and Philippines Authorities. Last kidnapping incident was reported in January 2020. It was reported that several ASG militants had been captured / killed by the authorities. Although the incidents have stopped, the waters remain moderately risky.

Vessels are advised to continue to take precautionary measures and maintain anti-piracy watch and measures especially at night. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on any potential incidents / targets / description of any militant boats issued on behalf of the Philippines and Malaysian Intel Agencies.

Manila: Be vigilant. Incidents have increased recently in the anchorage areas. Advise maintaining anti-piracy watch while at anchor in the night.

Singapore Straits: A General Warning was first issued in December 2019 indicating a sudden rise in incidents in Singapore Straits especially during the night is still valid. The incidents are still occurring to date. It appears that one or more groups are targeting passing ships, including tugs / barges to rob them. Authorities have been notified and are aware of the situation. Vessels are advised to remain vigilant and to continue maintaining adequate watches and measures. Robbers board vessels while underway or while at anchor especially during the night. Robbers will abort and move away when the alarm is sounded, and the authorities notified. Therefore, a strict watch is necessary. Waters now considered highly risky as January to December 2025 incidents increased more than 3-fold compared to same period in 2024. In view of this sudden surge, the IMB – Indonesian Marine Police (IMP) commenced constructive and official meetings with senior personnel in IMP including with their patrol boat stationed in the Singapore Straits in mid-June 2025 until August 2025 to find ways to stop the menace. During this period, two gangs were detained, and several stolen items were recovered by the IMP. The IMB continues to monitor and report on the reported incidents.

South China Sea: Although incidents have stopped in the vicinity off Tioman / off Pulau Aur / off Anambas / Natuna / Mangkai islands / Subi Besar / Merundung areas, vessels are advised to continue to remain vigilant, especially during the night. In the past, several hijackings of small product tankers occurred off the coast of Malaysia, Indonesia, Singapore and in the South China Sea area. This trend started in April 2014, but the hijackings stopped abruptly in late 2015. It has been reported that some criminals have been arrested by local authorities both in Malaysia and in Indonesia. There were three incidents reported in 2017 where two tankers were hijacked off Kuantan / Off Pulau Aur / East coast Malaysia. The IMB continues to monitor the situation in these waters.

WEST AFRICA (Gulf of Guinea) – As a general rule:

- (i) Follow recommendations and guidelines presented in the BMP WA.
- (ii) All crews to keep a vigilant lookout using all available means. Ships advised to adjust ETA for direct berthing or wait / drift / transit more than 300nm from the coast, if appropriate and agreed by all in venture. Past incidents reported up to 300nm from the coast.

Angola (Luanda): Previously incidents of robberies reported. Be vigilant and maintain watch.

Benin (Cotonou): In 2024, a fishing vessel captain was kidnapped at Cotonou anchorage. Previous incidents in the area involved crew kidnappings by well-armed and violent pirates / robbers. These pirates / robbers have robbed vessels and abducted crews for ransom. Tankers were also hijacked in the past, with part of their cargo, such as gas oil, stolen. While these incidents have ceased since 2022, vessels are still advised to remain vigilant and implement strict security measures.

Cameroon (Douala): Incidents dropped / none reported. However, stay alert due to past incidents such as vessels being fired upon while at anchor and crew members being kidnapped.

Equatorial Guinea: In 2024, there were two incidents off Bioko Island. One occurred approximately 28nm from the island, and the other around 45nm, resulting in the kidnapping of ship crew members. Additionally, two more incidents were reported about 80nm west of Bata, with one involving gunfire and the other a boarding. In 2025, two incidents reported at off Bata. One at around 40nm WNW of Bata, where the crew managed to escape by retreating into the citadel. The other incident was at around 52nm West of Bata, where the pirates managed to kidnap nine crew members.

Gabon (Port Gentil / Owendo anchorage): In 2024, one incident was reported at the anchorage. Previous crew kidnappings occurred over 70nm offshore.

Ghana (Takoradi): One incident reported in Q1 2026. Two incidents occurred in 2024 and three in 2025 at Takoradi anchorages, one at Accra and one at Off Anloga. Maintain strict watches.

Guinea (Conakry): One robbery incident reported in 2024, with previous incidents of robberies reported at anchorages.

Ivory Coast (Abidjan): Previously incidents reported at anchorage. Maintain watch.

Nigeria (Lagos / Apapa, Off Bayelsa / Brass / Bonny Island / Port Harcourt): Pirates / robbers in Nigerian waters are armed and violent and have been reported to kidnap crew. Incidents have occurred up to 300nm from shore. All waters off Nigeria are considered high-risk. Vessels should remain vigilant as some incidents may go unreported. Tankers have been hijacked in the past, with cargo theft, particularly of gas oil. Extra precautions are recommended for vessels operating in these dangerous waters.

Incidents in Nigeria have decreased significantly, but vessels are advised to remain vigilant while in these waters.

Togo (Lome): Incidents of robbery and kidnapping of crews in Togo have ceased since 2021. However, vessels are still advised to remain vigilant and implement strict security measures. In the past, incidents have been reported at Togo anchorage, where tankers were hijacked and part of their cargo stolen.

The Congo: In 2025, one incident reported at Pointe Noire anchorage.

Sao Tome & Principe: Incidents involved vessel hijackings, and crew kidnappings. Three recent incidents in 2025 occurred where a ship was hijacked / boarded, and crew kidnapped. Vessels are advised to maintain strict anti-piracy watch and measures. Waters remain risky for fishing and merchant vessels.

Sierra Leone: (off Turtle Islands). There was one reported hijacking incident in the past.

EAST AFRICA / GOA / RED SEA

Red Sea / Gulf of Aden / Somalia / Arabian Sea / Indian Ocean: On 14 December 2023 the first successful hijacking of a merchant vessel by Somali pirates since 2017 was reported. In 2024, eight piracy incidents and hijackings reported off Somalia / Gulf of Aden. In 2025, two fishing vessels and a dhow were hijacked. In 2026, two dhows and two vessels were reported hijacked, three fired upon and two reported attempted approaches off Somalia / Gulf of Aden. One tanker was reported hijacked at a Yemen anchorage and the vessel later sailed to Somalia.

Recent successful incidents demonstrate the continued capabilities of these criminals. Vessels are advised to be vigilant, maintain strict anti-piracy watch, and adhere to the recommendations in the latest BMP, while transiting in these waters. The IMB PRC will continue to alert and broadcast information to all ships in the region via GMDSS Safety Net Service.

In the past, Somali pirates have conducted their acts in waters off the southern Red Sea / Bab El Mandeb, Gulf of Aden including Yemen and the northern Somali coast, Arabian sea / off Oman, Gulf of Oman and off the eastern and southern Somali coast. Vessels have also been targeted off Kenya, Tanzania, Seychelles, Madagascar, Mozambique, as well as in the Indian ocean and off the west and south coasts of India and west Maldives.

Generally, Somali pirates tend to be well armed with automatic weapons and RPGs. They sometimes use skiffs launched from mother vessels, which may be hijacked fishing vessels or dhows. Masters and ship owners are encouraged to register their vessel and report as per the latest BMP procedures, ensure their vessel is hardened prior to entering these waters and to maintain a 24-hour visual and radar watch. Keeping in mind the warnings and alerts for the area, an early sighting / detection of an approaching skiff will enable an accurate assessment, allowing the Master and PCASP to make informed decisions to keep clear of small boats, dhows, fishing vessels and, if necessary, take evasive actions and request assistance as needed.

Masters are reminded that fishermen in this region may try to protect their nets by attempting to aggressively approach merchant vessels. Some of the fishermen may be armed to protect their catch and they should not be confused with pirates.

Vessels transiting in / off Yemen / Gulf of Aden / Southern Red Sea / Bab El Mandeb: There is a heightened security risk to vessels transiting these waters. Vessels are being approached by skiffs and hailed via VHF, allegedly by Yemeni naval forces, to alter course into Yemeni waters. Masters are encouraged to be cautious, ignore these calls and immediately report any such activities to Coalition warships on VHF Ch 16.

Not piracy related: Ships transiting Gulf of Aden, Southern Red Sea and Bab El Mandeb are also advised to be vigilant and take precautionary measures as in the recent past, vessels have been targeted by missiles and unmanned aerial/seaborne vehicles. Although recently no incidents were reported, the conditions and situation may change very quickly due to current political situation. With the current

tensions between US/Israel and Iran, the Houthis in Yemen may resume targeting ships in the Red Sea/Gulf of Aden at any time. Currently, ships experienced high levels of electronic interference particularly affecting GNSS/GPS/AIS systems. All vessels are urged to register and report as per the latest edition of the BMP.

Vessels transiting Persian Gulf / Straits of Hormuz / Gulf of Oman / Off Iran – recent incidents are not piracy related.

The recent regional tension/conflict between US/Israel – Iran in the Middle East has caused tremendous stress, major issues and safety to shipping where some merchant ships were targeted and hit by projectiles. GNSS/GPS/AIS interference was also reported in these waters. All vessels are urged to register and report as per the latest edition of the BMP. Although recent peace talks have started, vessels are advised to remain vigilant and take any available precautionary measures as situation may change at any time.

SOUTH AND CENTRAL AMERICA AND CARIBBEAN WATERS

Brazil (Macapa): Incidents have dropped and recently appears stopped. However, ships are advised to continue to stay vigilant.

Colombia (Cartagena): Past incidents reported at anchorages, river passage and pilot boarding ground. Stay vigilant.

Ecuador (Guayaquil): Incidents have stopped. Past incidents reported at anchorage / river passage with pilot. Robbers well-armed. Fired upon.

Haiti (Port Au Prince / Lafiteau): Incidents dropped but one incident – abduction of crew reported in 2025. Advised to continue maintaining watch and to stay vigilant.

Mexico (Puerto Dos Bocas): Incidents dropped. Past reported incidents - pirates / robbers in this area armed with guns.

Peru (Callao): Waters remain risky. Maintain vigilant watch and employ anti-piracy measures.

Venezuela (Puerto La Cruz / Puerto Jose / Guanta): Although incidents have stopped, vessels are still reminded to maintain strict anti-piracy watch and measures, especially at anchor.

EASTERN EUROPE/UKRAINE

Not piracy related: Ukraine and Russia conflict: stay clear of Ukrainian coast. In the past, mines reported in the Black Sea.

IMB Maritime Security Hotline

The International Maritime Bureau (IMB) has a dedicated hotline for seafarers, port workers, shipping agents, shipyard personnel, brokers, stevedores and all concerned parties to report any information that they may have seen / heard / known etc. relating to any maritime crime including terrorism, piracy and other illegal activities. All information reported will be treated in strict confidence and will be passed on to relevant authorities for further action. Maritime crime and security concerns us all and with your help, we can try to minimize the risks and help save lives and property.

The Maritime Security Hotline can be contacted 24 hours every day at: Tel: +60 3 2031 0014

Trends within areas of continued concern, January – June 2026

CHART K: Reported incidents attributed to Singapore Straits

CHART L: Reported incidents attributed to Gulf of Guinea

CHART M: Reported incidents attributed to Somali piracy

TRENDS

Thirty-eight incidents of piracy and armed robbery against ships were reported to the IMB Piracy Reporting Centre (PRC) in the first half (H1) of 2026. During the same period in 2025, 90 incidents were reported, compared to 60 in 2024.

The 2026 incidents comprised 27 vessels boarded, five vessels hijacked, and three incidents each of vessels being fired upon and approached. These remain the lowest reported H1 figures since 1992.

Despite this reduction, the danger to crew persists, with 67 crew taken hostage, two threatened, and one injured.

Somali pirates were responsible for 94% of all crew taken hostage, demonstrating their continued capability to board all types of vessels and the escalation of activities in the waters off Somalia.

In April 2026, Somali pirates boarded and hijacked a Palau-flagged product tanker, a St Kitts and Nevis-flagged general cargo vessel, and a UAE-flagged dhow. The trend continued in May when a Togo-flagged product tanker was boarded and hijacked while at anchor in Yemeni territorial waters before being sailed towards Somalia.

In June, a container vessel and an Aframax tanker were both fired upon, while another tanker reported an approach during its transit through the Gulf of Aden. These vessels successfully prevented boardings through adherence to industry Best Management Practices (BMP).

The IMB draws attention to this escalation and urges all Masters transiting these waters to strictly adhere to BMP. The IMB also calls upon the international naval forces operating in the region to adopt a more robust stance against this escalation and maintain a strong naval deterrent to counter any potential increase in this threat.

The welcome reduction in reported incidents in the Gulf of Guinea continued, with one failed incident reported at San Pedro Anchorage, Ivory Coast. Alert crew on board an anchored container vessel noticed unauthorised persons attempting to board via the anchor chain. Upon sounding the alarm, the perpetrators fled. While the IMB continues to encourage vigilance, it commends the littoral states for their sustained efforts and urges them to continue working towards ensuring the safety of crew.

Reported incidents in the Singapore Straits have decreased, with two vessels boarded in April and one each in May and June. Two crew were threatened in separate incidents, while one crew member was taken hostage for the duration of an incident.

An increase in vessel boardings was reported at Manila Anchorage during June, with three vessels reporting perpetrators armed with guns and knives boarding while at anchor. These incidents bring the total reported for H1 2026 to eight, compared to zero during the same period in 2025.

Since 1991, the IMB Piracy Reporting Centre's 24-hour manned centre has served as a single point of contact for reporting acts of piracy and armed robbery. The Centre has not only assisted ships in a timely manner, but has also provided the maritime industry, response agencies and governments with transparent data received directly from the Master of the vessel under attack or its owners.

The IMB PRC's prompt forwarding of reports and liaison with response agencies, together with its broadcasts to shipping via GMDSS SafetyNET services and email alerts to CSOs, all provided free of charge, have contributed significantly to the response against piracy and armed robbery and to enhancing the security of seafarers worldwide.

OBSERVATIONS

Narrations of the 38 attacks for 01 January to 30 June 2026 are listed on pages 28 to 34. The following serious incidents, in chronological sequence are described in more detail.

Somalia:

On 26 February 2026, an Iranian flagged vessel while underway was approached by suspected pirates at position Latitude: 08:27 North and Longitude: 050:34 East, around 15.5 nm ESE of Garmaal, Somalia at approximately 1833 UTC. Suspected pirates in two skiffs approached and attempted to board the vessel. The vessel implemented defensive measures, resulting in the skiffs aborting the attempted boarding. It was reported that one suspected pirate was killed and two others injured during the incident. No further information is available.

On 19 March 2026, an Iranian flagged Dhow, Al Waseemi 786 was boarded and hijacked by pirates while underway around 400 nm, East of Mogadishu, Somalia at approximately 0834 UTC. It was reported that the pirates released the dhow on 5 April 2026. All crew safe.

On 21 April 2026, a Palau flagged Product Tanker while underway was boarded and hijacked at position Latitude: 08:56.31 North and Longitude: 050:32.84 East, around 6 nm SSW of Durdura, Somalia at approximately 1140 UTC. Around 30 persons armed with RPG and AK 47s attacked and hijacked the tanker with 17 crews onboard. The incident is ongoing.

On 25 April 2026, an UAE flagged Dhow, Fahad 4 was boarded and hijacked approximately 10 nm off Dhinowda, Somalia. On 04 May 2026, the dhow was released.

On 26 April 2026, a St. Kitts and Nevis flagged General Cargo ship while underway was boarded and hijacked at position Latitude: 07:13 North and Longitude: 049:32 East, around 20 nm NNE of Garacad, Somalia. The incident is still ongoing.

Yemen:

On 02 May 2026, a Togo flagged Product Tanker while anchored in Yemen was boarded and hijacked at position Latitude: 13:49 North and Longitude: 048:28 East, around 12nm south of Qana Port Terminal, Shabwa, Yemen. Nine-armed persons hijacked the anchored tanker, took hostage all 12 crew members and sailed the ship to Somalia. The incident is still ongoing.

Gulf of Aden:

On 15 June 2026, a Panamanian flagged Container Ship MV Greta Star was fired upon while underway at position Latitude: 13:10.8 North and Longitude: 046:27.9 East, Gulf of Aden at approximately 0736 UTC. Seven-armed persons with AK47s, approached and fired at the ship. Ropes with hooks sighted. Alarm activated, all crew mustered, speed increased and evasive manoeuvres conducted resulting in the pirates aborting the approach and attempt to board. All 26 crews reported safe.

On 15 June 2026, a Panamanian flagged Tanker MT VST Amara was fired upon while underway at position Latitude: 12:24.13 North and Longitude: 046:46.55 East, Gulf of Aden at approximately 1350 UTC. Noticing the approaching skiff with around three to five persons onboard armed with AK 47s and RPG, the tanker commenced evasive manoeuvres. As the skiff approached, an RPG was fired towards the tanker which missed. The onboard armed security team returned fire resulting in the pirates aborting the approach. All 24 crews and security team reported safe.

On 21 June 2026, a Panamanian flagged Product Tanker MT Sea Heart was approached while underway at position Latitude: 14:30.81 North and Longitude: 050:19.31 East, Gulf of Aden at approximately 1012 UTC. Five armed pirates were sighted in the skiff along with a ladder. Alarm raised, crew

mustered, speed increased and evasive manoeuvres executed resulting in the skiff aborting the approach.
